Correct Marks : 4 Wrong Marks : 0

If variables can be of two types, dependent and independent, dependent variables are:

- a) Explanatory variables
- b) Unrelated to independent variables
- c) Less important than independent variables
- d) Variables that researchers seek to explain or predict

Options :

12820627819. A

12820627820. B

12820627821. C

12820627822. D

**Question Number : 7 Question Id : 1282067023 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical**

Correct Marks : 4 Wrong Marks : 0

A hypothesis is:

- a) An unexpected but confirmed relationship between two or more variables
- b) An expected but unconfirmed relationship between two or more variables
- c) An expected relationship between two or more variables that cannot be confirmed
- d) An unexpected relationship between two or more variables that the research confirms in the end

Options :

12820627823. A

12820627824. B

12820627825. C

12820627826. D

Question Number : 8 Question Id : 1282067024 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 4 Wrong Marks : 0

Probability and non-probability are two sampling types that may include many techniques.

Which of the following sets offers the right combination of sampling types and techniques:

- a) Probability sampling: Simple random sampling, Stratified random sampling, Cluster sampling
Non-probability sampling: Convenience sampling, Purposive sampling, Quota sampling
- b) Probability sampling: Systematic sampling, stratified random sampling, Quota sampling
Non-probability sampling: Convenience sampling, Purposive sampling, Cluster sampling
- c) Probability sampling: Convenience sampling, Purposive Sampling, Quota Sampling
Non-probability sampling: Simple random sampling, Stratified random sampling, Cluster sampling
- d) Probability sampling: Stratified random sampling, Quota sampling, Convenience sampling
Non-probability sampling: Cluster sampling, Systematic sampling, Simple random sampling

Options :

12820627827. A

12820627828. B

12820627829. C
