Question Paper Name: Environmental Studies 10th November 2019 Shift 2
Subject Name: Environmental Studies
Creation Date: 2019-11-10 18:06:59
Duration: 180
Total Marks: 100
Display Marks: Yes

Environmental Studies

Group Number : 1
Group Id : 709597311
Group Maximum Duration : 0
Group Minimum Duration : 120
Revisit allowed for view? : No
Revisit allowed for edit? : No
Break time: 0
Group Marks: 100

Environmental Studies

Section Id : 709597400
Section Number : 1
Section type : Online
Mandatory or Optional: Mandatory
Number of Questions: 100
Number of Questions to be attempted: 100
Section Marks: 100
Display Number Panel: Yes
Group All Questions: No

Sub-Section Number: 1
Sub-Section Id: 709597504
Question Shuffling Allowed : Yes

Question Number : 1 Question Id : 70959728347 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The following planet has life:

- Earth
- Venus
- Jupiter
- Saturn

Question Number : 2 Question Id : 70959728348 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Environmental studies are connected with:

- a. Botany
- b. Zoology
- c. Geography
- d. All of the above.

Question Number : 3 Question Id : 70959728349 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Environment has following components:

- a. Biotic factors
- b. Abiotic factors
- c. Climatic factors
- d. All of the above

Question Number : 4 Question Id : 70959728350 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The cause of Bhopal gas tragedy was:

- a. methyl isocyanide gas
- b. methyl isocyanate gas
- c. carbon dioxide gas
- d. sulphur dioxide

Question Number : 5 Question Id : 70959728351 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

In India maximum forest area is found in which state?

- a. Madhya Pradesh
- b. Meghalaya
- c. Assam
- d. Uttar Pradesh

Question Number : 6 Question Id : 70959728352 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Jhum is a:

- a. Type of dance
- b. Type of cultivation
- c. Type of folklore
- d. Mental State

Question Number : 7 Question Id : 70959728353 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

In India Van Mahotsava was started by:

- a. Pandit Jawaharlal Nehru
- b. Shri. K. N. Munshi
- c. Shri. Lal Bahadur Shastri
- d. Shri. Narendra Modi

Question Number : 8 Question Id : 70959728354 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Grass is very good soil binder due to:

- a. Extensive root system
- b. Strong shoot system
- c. Linear leaves
- d. More seeds

Question Number : 9 Question Id : 70959728355 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Average requirement of drinkable water per person per day is:

- a. 3 litres
- b. 5 litres
- c. 10 litres
- d. 7 litres

Question Number : 10 Question Id : 70959728356 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Potable water means:

- a. Water used for drinking purpose
- b. Water used for irrigation
- c. Water used for washing clothes
- d. All the above

Question Number : 11 Question Id : 70959728357 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

In India, Petroleum is found in :

- a. Bombay High.
- b. Gujarat.
- c. Assam.
- d. All of the above.

Question Number : 12 Question Id : 70959728358 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Coastal sand of Kerala is rich in the following radioactive element :

- a. Uranium.
- b. Thorium.
- c. Radium.
- d. Platinum.

Question Number : 13 Question Id : 70959728359 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The first person who had warned regarding the shortage of food in view of increasing population was:

- a. Darwin
- b. Malthus
- c. Amartiya Sen
- d. Arthur Conan Doyle

Question Number : 14 Question Id : 70959728360 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The following country is using Algae to the extent of 25% in its daily diet:

- a. China
- b. India
- c. Japan
- d. Indonesia

Question Number : 15 Question Id : 70959728361 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The following is the parameter of the progress of a country

- a. Food consumption
- b. Water consumption
- c. Energy consumption
- d. Mineral consumption

Question Number : 16 Question Id : 70959728362 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Use of wind mills to generate electricity was practiced in 20th Century in

- a. China
- b. Afghanistan
- c. Denmark
- d. India

Question Number : 17 Question Id : 70959728363 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The flame with maximum heating capacity has

- a. Red colour
- b. Yellow colour
- c. Blue colour
- d. Green colour

Question Number : 18 Question Id : 70959728364 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Cultivation of sugar cane crop to obtain fuel alcohol is called:-

- a. Petro-plantation
- b. Energy plantation
- c. Petro-cropping
- d. All

Question Number : 19 Question Id : 70959728365 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The combustible part of biogas:-

- a. Methane
- b. Hydrogen
- c. Both A & B
- d. Hydrogen sulphide

Question Number : 20 Question Id : 70959728366 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

In an ideal ecosystem the percentage of forest should be:

- a. 15%
- b. 20%
- c. 33%
- d. 50%

Question Number : 21 Question Id : 70959728367 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The following is the primary forest product:

- a. Timber
- b. Gum
- c. Honey
- d. Catechu

Question Number : 22 Question Id : 70959728368 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The following grass is found throughout the world:

- a. Cynodon
- b. Cenchrus
- c. Cymbopogon
- d. Chrysopogon

Question Number : 23 Question Id : 70959728369 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Musk deer is found in:

- a. Broad leaved evergreen forest
- b. Broad leaved deciduous forest
- c. Coniferous forest
- d. Mangrove forest

Question Number : 24 Question Id : 70959728370 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The name ecocosm was given by:

- a. Karl Mobius
- b. S. Forbes
- c. R. Mishra
- d. Sukhdev

Question Number : 25 Question Id : 70959728371 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The following grass has showy flowers:

- a. Cymbopogon
- b. Chrysopogon
- c. Briza minor
- d. Cenchrus

Question Number : 26 Question Id : 70959728372 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Natural dyes are:

- a. Deep and soft
- b. Antiseptic
- c. aromatic
- d. All of the above

Question Number : 27 Question Id : 70959728373 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The word biodiversity was coined by whom?

- a. A.G.Tansley
- b. R. Mishra
- c. Walter G .Rosen
- d. E.P.Odum

Question Number : 28 Question Id : 70959728374 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Biodiversity includes

- a. Varieties of Plants
- b. Variety of animals
- c. Variety of Microbes
- d. All of the above

Question Number : 29 Question Id : 70959728375 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The following group of animals have maximum number of species

- a. Fishes
- b. Insects
- c. Birds
- d. Mammals

Question Number : 30 Question Id : 70959728376 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The greatest threat to the biodiversity is due to:

- Habitat Loss
- Introduction of alien species.
- Intensive agriculture
- Atmospheric pollution.

Question Number : 31 Question Id : 70959728377 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

LED means:

- Light emitting diode
- Light enlarging disc
- Light emitting device
- Light enhancing disc

Question Number : 32 Question Id : 70959728378 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Sudden horizontal movement on very gentle terrain is termed as-

- Spread
- Fall
- Mass wasting
- Soil erosion

Question Number : 33 Question Id : 70959728379 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Acceptable sound level for classroom is:

- 10-20 dB
- 20-30 dB
- 30-40 dB
- 40-50 dB

Question Number : 34 Question Id : 70959728380 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Growing trees along the road side to control noise pollution is called:

- Green belt
- Green muffler
- Green area
- Green garden

Question Number : 35 Question Id : 70959728381 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

What is Environment Accounting?

- It is a method to measure the consumption of the environment/ natural resources.
- Its a method to statistically analyze the green areas of the country.
- Its a method of accounting in which all units are expressed in terms of loss / gain of Carbon Dioxide.
- Its a method of accounting in which all measurement is expressed in Carbon Credits

Question Number : 36 Question Id : 70959728382 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Ozone layer lies in:

- Troposphere
- Tropopause
- Stratosphere
- Photosphere

Question Number : 37 Question Id : 70959728383 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Which among the following is a correct definition of an Ecotone?

- A transition between two types of ecosystems particularly plant communities
- A transition between two types of ecosystems particularly soil structure & chemical composition
- A transition between two types of mountain ranges
- A transition between two types of species.

Question Number : 38 Question Id : 70959728384 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Process of nitrates utilization by organisms is classified as

- Assimilation
- Nitrification
- Denitrification
- Ammonification

Question Number : 39 Question Id : 70959728385 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Genetic diversity in agricultural crops is threatened by

- Introduction of high yielding varieties
- Intensive use of fertilizers
- Extensive intercropping
- Intensive use of biopesticides

Question Number : 40 Question Id : 70959728386 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Antelope cervicapra/Black Buck is

- a. Vulnerable
- b. Endangered
- c. Critically endangered
- d. Extinct in the wild

Question Number : 41 Question Id : 70959728387 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Which of the following means endemic

- a. Indigenous
- b. Exotic
- c. Ubiquitous
- d. Naturalized

Question Number : 42 Question Id : 70959728388 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Species very near to extinction if conservation measures are not promptly taken is

- a. Threatened species
- b. Rare species
- c. Endangered species
- d. Vulnerable species

Question Number : 43 Question Id : 70959728389 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

In India, commonly available Rhesus monkey is

- a. *Macaca mulatta*
- b. *Alouatta*
- c. *Ateles paniscus*
- d. *Ateles geoffroyi*

Question Number : 44 Question Id : 70959728390 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

What is the dB of threshold of pain?

- a. 100
- b. 110
- c. 120
- d. 146

Question Number : 45 Question Id : 70959728391 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Which of the following is a liquid form of aerosol?

- a. Fume
- b. Dust
- c. Mist
- d. Smoke

Question Number : 46 Question Id : 70959728392 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Which if the following is not included in municipal solid waste (MSW) according to the definition of WHO?

- a. Domestic refuse
- b. Garden refuse
- c. Construction rubbish
- d. Hospital waste

Question Number : 47 Question Id : 70959728393 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Which of the following is hazardous waste in municipal solid waste (MSW)?

- a. Domestic refuse
- b. Hospital waste
- c. Trade refuse
- d. Construction rubbish

Question Number : 48 Question Id : 70959728394 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Majority of Indian waste has caloric value of about:

- a. 1500 k.cal/kg
- b. 2500 k.cal/kg
- c. 2000 k.cal/kg
- d. 1000 k.cal/kg

Question Number : 49 Question Id : 70959728395 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The MSW component which is not recyclable is:

- a. Paper
- b. Textile
- c. Metal
- d. Vegetable peels

Question Number : 50 Question Id : 70959728396 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

India is having a coastal area of about:

- a. 5700 KM
- b. 5800 KM
- c. 6000 KM
- d. 7000 KM

Question Number : 51 Question Id : 70959728397 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Marine pollution is:

- a. Global problem
- b. Local problem
- c. Problem of countries located along sea shore
- d. Not a problem

Question Number : 52 Question Id : 70959728398 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The salinity of sea is about:

- a. 20%
- b. 25%
- c. 35%
- d. 45%

Question Number : 53 Question Id : 70959728399 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

For violating the rules of proper disposal of biomedical waste, the following penalty can be imposed:

- a. Fine or/and imprisonment of 5 years.
- b. Closures of Hospitals
- c. Ban on medical practice
- d. Life-imprisonment

Question Number : 54 Question Id : 70959728400 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Burning biomedical waste in a closed chamber at high temperature is called:

- a. Pyrolysis
- b. Incineration
- c. Liquefaction
- d. All of the above

Question Number : 55 Question Id : 70959728401 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Schistosomiasis is caused by:

- a. Bacteria
- b. Fungi
- c. Trematoda
- d. Virus

Question Number : 56 Question Id : 70959728402 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Non-pathogenic diseases born or spread by water are caused by pollution due to:

- a. Nutrients in excess
- b. Toxic metals
- c. Toxic gases
- d. Human excreta.

Question Number : 57 Question Id : 70959728403 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Minamata disease was caused due to contamination of water bodies by:

- a. Methane
- b. Methyl mercury
- c. Arsenic
- d. Zinc

Question Number : 58 Question Id : 70959728404 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Release of energy from nucleus of an atom is called:

- a. Fusion
- b. Fission
- c. Radiation
- d. Mutation

Question Number : 59 Question Id : 70959728405 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Important radioactive elements is:

- a. Cadmium
- b. Uranium
- c. Aluminium
- d. Nickel

Question Number : 60 Question Id : 70959728406 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Gradual deposition of radioactive debris an earth surface is:

- a. Fall out
- b. Settlement
- c. Magnification
- d. All the above

Question Number : 61 Question Id : 70959728407 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Separation of electrons from atom by energy:

- a. Hybridization
- b. Ionization
- c. Fertilization
- d. Mutation

Question Number : 62 Question Id : 70959728408 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Gradual increase in amount of persistence chemicals in successive trophic levels is called:

- a. Accumulation
- b. Enlargement
- c. Concentration
- d. Biological magnification

Question Number : 63 Question Id : 70959728409 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Pollution prevention strategies applied by industries are –

- a. Recycling
- b. Waste minimization.
- c. Improving manufacturing process
- d. All the above.

Question Number : 64 Question Id : 70959728410 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The 1st country to develop 'Eco-industrial Park', under industrial symbiosis:

- a. Germany
- b. Denmark
- c. Holland
- d. United Kingdom

Question Number : 65 Question Id : 70959728411 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Industrial wastes with high amt of organic carbon forms can be used for:

- a. Energy recovery
- b. Carbon recovery
- c. Waste recovery
- d. Product recovery

Question Number : 66 Question Id : 70959728412 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Recycling of aluminium is a good example because:

- a. It causes less air pollution
- b. It causes less water pollution
- c. All the above
- d. It saves energy

Question Number : 67 Question Id : 70959728413 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

_____ can be recycled for indefinite times:

- a. Glass
- b. Plastic
- c. Paper
- d. Organic Solvents

Question Number : 68 Question Id : 70959728414 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Incineration is not a very safe treatment process because it:

- a. Produces large amounts of energy
- b. Produces hazardous air pollutants and ash
- c. Causes water pollution
- d. Consumes large amounts of energy

Question Number : 69 Question Id : 70959728415 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Blackstone's concept of environmental rights is based on:

- a. Gandhian thought
- b. Darwinism
- c. Kantian theory
- d. None of the above

Question Number : 70 Question Id : 70959728416 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Sustainable development means:

- a. Development at any cost
- b. Development to sustain vegetation
- c. Development without destruction
- d. Development at low cost.

Question Number : 71 Question Id : 70959728417 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

"Public awareness interest litigation." This phrase was given by:

- a. Salim Ali
- b. Justice P.N. Bhagwati
- c. S.K.Nanda
- d. Ministry of Environment, Govt of India.

Question Number : 72 Question Id : 70959728418 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

World Heritage Day falls on:

- a. 5th June
- b. 2nd February
- c. 18th April
- d. 1st July

Question Number : 73 Question Id : 70959728419 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The Environmental concepts in Management and Business in an Environmental appreciation course which is being worked by:

- Ministry of Commerce.
- Ministry of Human Resource Development.
- Ministry of Environment and forest.
- Ministry of Non-Conventional Energy.

Question Number : 74 Question Id : 70959728420 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

On the earth there is a life network of:

- 2.8 Million species of animals and plants.
- 3.8 Million species of animals and plants.
- 1.8 Million species of animals and plants.
- 0.8 Million species of animals and plants.

Question Number : 75 Question Id : 70959728421 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The Ramsar Conversations on wasteland was signed on:

- 1st Feb
- 2nd Feb
