Question Paper Name: Intervention and Teaching Strategies for Children with Visual Impairment 10th November 2019 Shift 1
Subject Name: Intervention and Teaching Strategies for Children with Visual Impairment
Creation Date: 2019-11-10 13:22:32
Duration: 180
Total Marks: 100
Display Marks: Yes

Intervention and Teaching Strategies for Children with Visual Impairment

Group Number : 1
Group Id : 709597142
Group Maximum Duration : 0
Group Minimum Duration : 120
Revisit allowed for view? : No
Revisit allowed for edit? : No
Break time: 0
Group Marks: 100

Intervention and Teaching Strategies for Children with Visual Impairment

Section Id : 709597145
Section Number : 1
Section type : Online
Mandatory or Optional: Mandatory
Number of Questions: 100
Number of Questions to be attempted: 100
Section Marks: 100
Display Number Panel: Yes
Group All Questions: No

Sub-Section Number: 1
Sub-Section Id: 709597165
Question Shuffling Allowed : Yes

Question Number : 1 Question Id : 70959714037 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical
Correct Marks : 1 Wrong Marks : 0

An approach could be considered as a _____.

- a) Principle and method used for instruction
- b) Belief or theoretical stance on something
- c) Game or any activity to reach the goal
- d) System of actions

Question Number : 2 Question Id : 70959714038 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical
Correct Marks : 1 Wrong Marks : 0

Differentiated instruction is very similar to _____.

- a) Direct teaching
- b) Indirect teaching
- c) Mediated teaching
- d) Cooperative teaching

Question Number : 3 Question Id : 70959714039 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

In the mediated teaching, the stimuli is transformed by _____.

- a) Direct exposure
- b) Assistive technology
- c) Instructional material
- d) Mediating agent

Question Number : 4 Question Id : 70959714040 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The approach through which visual ideas are compensated by non-visual experiences
_____.

- a) Multisensory approach
- b) Sensory Integration approach
- c) Visual Integration approach
- d) Multimedia approach

Question Number : 5 Question Id : 70959714041 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

_____ are the objects designed to represent explicitly and concretely the abstract
mathematic concepts.

- a) Accommodations
- b) Adaptations
- c) Math manipulatives
- d) Teachers

Question Number : 6 Question Id : 70959714042 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

_____ tailors problems according to student's response and supplies immediate
feedback for each response.

- a) Computer Assisted Instructions
- b) Teachers
- c) Parents
- d) None of the above

Question Number : 7 Question Id : 70959714043 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The ability to arrange objects in order by size is _____ skills.

- a) Seriation
- b) Analytic
- c) Descending
- d) None of the above

Question Number : 8 Question Id : 70959714044 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

_____ awareness is essential to get mastery of the geometrical concepts.

- a) Picture
- b) Drawing
- c) Spatial
- d) Learning

Question Number : 9 Question Id : 70959714045 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Early intervention refers to the training that is given to toddlers during first _____ years of life.

- a) Two
- b) Three
- c) Four
- d) Five

Question Number : 10 Question Id : 70959714046 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

To make a comprehensive assessment of vision is the role of a _____

- a) Optometrist
- b) Ophthalmologist
- c) Social Worker
- d) Special Educator

Question Number : 11 Question Id : 70959714047 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

In _____ learning, students can get support from their peer group.

- a) Collaborative
- b) Cooperative
- c) Peer-tutoring
- d) Self-paced
- e) Cooperative

Question Number : 12 Question Id : 70959714048 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Set of orderly procedures are known as _____.

- a) Method
- b) Approach
- c) Strategy
- d) Technique

Question Number : 13 Question Id : 70959714049 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

A tactile graphic aid does not include _____ and _____ as expected by visual readers.

- a) Colours, embellishment and artistic additions
- b) Textures, patterns and drawings
- c) Audio, movement and Braille code
- d) None of the above

Question Number : 14 Question Id : 70959714050 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

_____ can be used to indicate the changes made to the print format.

- a) Modules
- b) Prescriptions
- c) Transcriptions
- d) All the above

Question Number : 15 Question Id : 70959714051 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Mathematical computation involves both written and _____ computation.

- a) Mental
- b) Verbal
- c) Non-Verbal
- d) Non-Mental

Question Number : 16 Question Id : 70959714052 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

_____ component develop confidence in students ability to calculate mentally.

- a) Cognitive
- b) Affective
- c) Physical
- d) Perceptual

Question Number : 17 Question Id : 70959714053 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The Code used for encoding mathematical and scientific notation linearly using standard six-dot Braille cells for tactile reading is _____.

- a) Nemeth Braille Code
- b) Literacy Braille Code
- c) Binary Braille Code
- d) Abacus

Question Number : 18 Question Id : 70959714054 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The _____ has rows of opening each set out as an eight pointed star.

- a) Abacus
- b) Taylor frame
- c) Geo-Board
- d) Braille Slate

Question Number : 19 Question Id : 70959714055 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The learners with tactile learning style uses the sense of _____ to learn.

- a) Vision
- b) Auditory
- c) Touch
- d) Sound

Question Number : 20 Question Id : 70959714056 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Tactile aids are a means of conveying _____ information to the visually impaired students.

- a) Non-textual
- b) Textual
- c) Verbal
- d) Non-verbal

Question Number : 21 Question Id : 70959714057 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

VAKT method is known as _____.

- a) Verbal, Auditory, Kinesthetic and Tone method
- b) Verbal, Auditory, Kinesthetic and Tactile method
- c) Visual, Auditory, Kinesthetic and Tone method
- d) Visual, Auditory, Kinesthetic and Tactile method

Question Number : 22 Question Id : 70959714058 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Hands on experiences can mostly be provided in the _____ method.

- a) Lecture method
- b) Demonstration method
- c) Lecture cum demonstration method
- d) Laboratory method

Question Number : 23 Question Id : 70959714059 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Allow _____ time for exploration of science material.

- a) Least
- b) Extra
- c) Useful
- d) All the above

Question Number : 24 Question Id : 70959714060 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The approach that prepares the students to observe, understand facts, analyze and interpret is _____.

- a) Whole child approach
- b) Meta cognitive approach
- c) Problem solving approach
- d) Research based approach

Question Number : 25 Question Id : 70959714061 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

_____ evaluation which ensures the programme's objectives are achievable.

- a) Formative
- b) Summative
- c) Diagnostic
- d) Internal

Question Number : 26 Question Id : 70959714062 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

For evaluation in the diagram part, the visually impaired students may be asked to _____ the diagram.

- a) Omit
- b) Draw with assistance
- c) Narrate
- d) Draw independently

Question Number : 27 Question Id : 70959714063 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Early intervention focuses on basic

- a) Education
- b) Functional skills
- c) Prevocation
- d) Braille learning

Question Number : 28 Question Id : 70959714064 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

For the blind children, 2D educational material has to be adapted to the _____ perception of an individual pupil.

- a) Auditory
- b) Kinesthetic
- c) Visual
- d) Non-visual

Question Number : 29 Question Id : 70959714065 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Raised Globes are made in _____.

- a) Plastic
- b) relief
- c) Paper
- d) Wood

Question Number : 30 Question Id : 70959714066 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The type of evaluation that identifies the learning problems in student is _____.

- a) Diagnostic
- b) External
- c) Formative
- d) Summative

Question Number : 31 Question Id : 70959714067 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

For low-vision print readers, the question-paper should be provided in _____.

- a) Braille
- b) Audio taped
- c) Large-print
- d) print

Question Number : 32 Question Id : 70959714068 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

To explain the importance of locality and regions of the country, field trips to _____
should be arranged.

- a) Planetariums
- b) Places of geographical importance
- c) Parks
- d) Environmental braille signs

Question Number : 33 Question Id : 70959714069 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The method used in problem solving is _____.

- a) Narration
- b) Role playing
- c) Dramatization
- d) Myths

Question Number : 34 Question Id : 70959714070 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

For the blind children, Social Science education relies heavily on _____.

- a) Visual graphics
- b) Audio cassette
- c) Tactile graphics
- d) Photography

Question Number : 35 Question Id : 70959714071 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Children with visual impairment are able to understand the different features of the map as

_____.

- a) Place by place
- b) A whole
- c) Point by point
- d) Tactile graphics

Question Number : 36 Question Id : 70959714072 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

_____ are helpful to develop basic map reading skills for the totally blind.

- a) Large size maps
- b) embossed maps
- c) Reading-readiness books
- d) Graphs

Question Number : 37 Question Id : 70959714073 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Direct contact with _____ will help children with visual impairment get familiar with the environment.

- a) Tactile Maps
- b) Nemeth code
- c) Environmental braille signs
- d) None of the above

Question Number : 38 Question Id : 70959714074 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

During field trips by recording events and experiences on cassette tapes we can make a/an _____ album for children with visual impairment.

- a) Photo
- b) Video
- c) Auditory experience
- d) All the above

Question Number : 39 Question Id : 70959714075 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

As the story-telling method is specifically suitable for junior stage pupils, the _____ method is particularly appropriate for the higher class students.

- a) Narration
- b) Role playing
- c) Dramatization
- d) Myths

Question Number : 40 Question Id : 70959714076 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Vision and _____ are called distance senses.

- a) Hearing
- b) Kinesthetic
- c) touch
- d) taste

Question Number : 41 Question Id : 70959714077 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Vision helps in _____.

- a) Learning by seeing things
- b) Locating the source of sound
- c) Reaching to objects
- d) All of the above

Question Number : 42 Question Id : 70959714078 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Visual field is _____.

- a) The whole area seen by a person
- b) Distance vision
- c) Near vision
- d) Contrast sensitivity

Question Number : 43 Question Id : 70959714079 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

This is the measurement of the smallest text size that the child can read at a comfortable distance and what is the smallest size that the child can read at a closer distance _____.

- a) Reading speed
- b) Optotype
- c) Near vision
- d) Reading threshold

Question Number : 44 Question Id : 70959714080 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Dim lighting is needed to persons with eye condition _____.

- a) Retinitis pigmentosa
- b) Achromatopsia
- c) Corneal scarring
- d) Coloboma iris

Question Number : 45 Question Id : 70959714081 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

For long sightedness, this lens is required

- a) Minus
- b) Plus
- c) Contact
- d) cylindrical

Question Number : 46 Question Id : 70959714082 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

_____ activity is used to stimulate the child's visual skills.

- a) Globalisation
- b) Self-Awareness
- c) Eye contact
- d) Fixation

Question Number : 47 Question Id : 70959714083 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

_____ is a type of functional vision loss.

- a) Peripheral vision loss
- b) Local vision loss
- c) Distance vision loss
- d) Low vision

Question Number : 48 Question Id : 70959714084 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Magnifiers for near tasks can be used for _____.

- a) Watching television
- b) Reading backboard writing
- c) Reading book
- d) mobility

Question Number : 49 Question Id : 70959714085 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Depth perception _____

- a) It is the visual ability to perceive the world in three dimensions (3D)
- b) Visual ability to perceive 2 dimensional items
- c) Light perception
- d) Object permanence

Question Number : 50 Question Id : 70959714086 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Visual acuity in low vision is _____.

- a) 6/18 - 3/60
- b) 6/18 - 6/12
- c) <6/18 - 3/60
- d) <6/18 - 6/60

Question Number : 51 Question Id : 70959714087 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Domestication is

- a) Adaptation
- b) Modification
- c) Substitution
- d) Omission

Question Number : 52 Question Id : 70959714088 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

A _____ is a strong lens which is mounted in a plastic stand.

- a) Hand-held magnifier
- b) Stand magnifier
- c) Spectacle magnifier
- d) Large magnifier

Question Number : 53 Question Id : 70959714089 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Side shields are _____ device

- a) Magnification
- b) Light control
- c) Reading
- d) Writing

Question Number : 54 Question Id : 70959714090 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Children with low vision do not learn independent skills on their own because _____.

- a) They do not observe them in others
- b) They do not want to learn from others
- c) They lack social skills
- d) They are dependent

Question Number : 55 Question Id : 70959714091 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Normal visual acuity is _____

- a) 6/60
- b) 6/6
- c) 20/20
- d) 20/200

Question Number : 56 Question Id : 70959714092 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

One of the drawback of swell paper production method is _____

- a) lack of variation
- b) lack of clarity
- c) lack of visibility
- d) lack of contrast

Question Number : 57 Question Id : 70959714093 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Electronic Video Magnifier is also called _____.

- a) Video Magnifier
- b) Zoom lenses
- c) Flex Arm Camera lenses
- d) CCTV

Question Number : 58 Question Id : 70959714094 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Braille is used to

- a) Read and speak
- b) Read and write
- c) Speak
- d) listen

Question Number : 59 Question Id : 70959714095 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The ability to discriminate discrete tactual differences is

- a) tactile discrimination
- b) finger dexterity
- c) finger manipulation
- d) finger coordination

Question Number : 60 Question Id : 70959714096 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Awareness oneself in relation to the environment is .

- a) kinesthetic
- b) mobility
- c) orientation
- d) body space relation

Question Number : 61 Question Id : 70959714097 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Typoscope is a

- a) Visual aid
- b) optical device
- c) non- optical aid
- d) electronic device

Question Number : 62 Question Id : 70959714098 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Fine motor skill needed for reading readiness is

- a) labeling the object
- b) body part awareness
- c) grasping
- d) fingering

Question Number : 63 Question Id : 70959714099 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Choose toys that are _____ interesting for children with visual impairment

- a) Visually
- b) tactually
- c) both a&b
- d) mentally

Question Number : 64 Question Id : 70959714100 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Cylindrical lens is used to correct

- a) Myopia
- b) Aphakia
- c) Hyperopia
- d) Astigmatism

Question Number : 65 Question Id : 70959714101 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Lenses used for the enlargement of retinal image is

- a) Optical device
- b) Non optical device
- c) Typoscope
- d) microscope

Question Number : 66 Question Id : 70959714102 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

_____ Magnifier is used for long-term reading.

- a) Spectacle
- b) Hand-Held
- c) Stand
- d) fixed

Question Number : 67 Question Id : 70959714103 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The lense used in Hand-held magnifiers is

- a) concave
- b) convex
- c) cylindrical
- d) normal

Question Number : 68 Question Id : 70959714104 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

The term daily living skill refers to a range of

- a) Personal self care
- b) Batgeing
- c) Toilet training
- d) brushing

Question Number : 69 Question Id : 70959714105 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

ADL comprise everything entailed in _____ and _____.

- a) Human life and environment
- b) Human life and relationships
- c) Society and neighbourhood
- d) Family and neighbourhood

Question Number : 70 Question Id : 70959714106 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

A standard bifocal add or reading glasses are used with_____ Magnifier

- a) Spectacle
- b) Hand-Held
- c) Stand
- d) Illuminated hand held magnifiers

Question Number : 71 Question Id : 70959714107 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Adapted material for visually impaired need to be made on basis of _____.

- a) Speech
- b) Residual vision
- c) Listening
- d) Audition

Question Number : 72 Question Id : 70959714108 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

Home economics and family life can be learned by the visually impaired by _____ method.

- a) Observation
- b) Experiential
- c) Oral instruction
- d) Associated Learning

Question Number : 73 Question Id : 70959714109 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0

For a young visually impaired daily living skills are taught with this method

- a) Association
- b) Observation
- c) Oral
- d) Task analysis

Question Number : 74 Question Id : 70959714110 Question Type : MCQ Option Shuffling : No Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct Marks : 1 Wrong Marks : 0
