

# National Testing Agency

**Question Paper Name:** Social Work Research  
**Subject Name:** Social Work Research  
**Creation Date:** 2018-12-02 17:35:48  
**Duration:** 180  
**Total Marks:** 100  
**Display Marks:** Yes  
**Share Answer Key With Delivery Engine:** Yes  
**Actual Answer Key:** Yes

## Social Work Research

**Group Number :** 1  
**Group Id :** 41652954  
**Group Maximum Duration :** 0  
**Group Minimum Duration :** 120  
**Revisit allowed for view? :** No  
**Revisit allowed for edit? :** No  
**Break time:** 0  
**Group Marks:** 100

## Social Work Research

**Section Id :** 41652954  
**Section Number :** 1  
**Section type :** Online  
**Mandatory or Optional:** Mandatory  
**Number of Questions:** 100  
**Number of Questions to be attempted:** 100  
**Section Marks:** 100  
**Display Number Panel:** Yes  
**Group All Questions:** No

**Sub-Section Number:** 1  
**Sub-Section Id:** 41652955  
**Question Shuffling Allowed :** Yes

**Question Number : 1 Question Id : 4165294401 Question Type : MCQ Option Shuffling : No Display Question Number : Yes**  
**Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

The scientific approach has one of the following characteristics that no other method of attaining knowledge has:

- (A) Subjectivity
- (B) Objectivity.
- (C) Relativity
- (D) Productivity

**Question Number : 2 Question Id : 4165294402 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Social work research helps social workers in appraising the effectiveness of:

- (A) Social work theories
- (B) Social work principles
- (C) Social work intervention
- (D) Social work values

**Question Number : 3 Question Id : 4165294403 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Quantitative research inferences are not reliable.

- (A) True
- (B) False

**Question Number : 4 Question Id : 4165294404 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Qualitative research conclusions are more reliable than quantitative research.

- (A) True
- (B) False

**Question Number : 5 Question Id : 4165294405 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

When we do not know about a research problem, we adapt: :

- (A) Exploratory Research Design.
- (B) Descriptive Research Design
- (C) Explanatory Research Design
- (D) Experimental Research Design

**Question Number : 6 Question Id : 4165294406 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Following are the steps of social research. Arrange the steps to prepare a plan of research study by choosing a code given below:

- I. Formulation of Hypothesis
- II. Identification of Problem
- III. Data Collection
- IV. Drawing of Inferences

- (A) Formulation of Hypothesis, Data Collection, Identification of Problem, Drawing of Inferences
- (B) Identification of Problem, Formulation of Hypothesis, Data Collection, Drawing of Inferences
- (C) Formulation of Hypothesis, Identification of Problem, Data Collection, Drawing of Inferences
- (D) Formulation of Hypothesis, Drawing of Inferences Data Collection, Identification of Problem,

**Question Number : 7 Question Id : 4165294407 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Which one of the following is a probability sampling method?

- (A) Simple Random
- (B) Purposive
- (C) Snowball
- (D) Quota Sampling

**Question Number : 8 Question Id : 4165294408 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Data collected by a researcher for his/her study through a questionnaire are called:

- (A) Primary Data
- (B) Secondary Data
- (C) Tertiary Data
- (D) Processed Data

**Question Number : 9 Question Id : 4165294409 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Empirical observation is casual activity in research.

- (A) True
- (B) False

**Question Number : 10 Question Id : 4165294410 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Observation in research is a conscious activity designed to collect reliable data.

- (A) True
- (B) False

**Question Number : 11 Question Id : 4165294411 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Observation is a most common tool of data collection in qualitative research.

- (A) True
- (B) False

**Question Number : 12 Question Id : 4165294412 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Processing of data refers to:

- (A) Editing of data
- (B) Coding and Tabulation of data
- (C) Editing, Coding and Tabulation of Data
- (D) Editing of data, Coding, Preparation of Master Chart and Tabulation

**Question Number : 13 Question Id : 4165294413 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

The purpose of giving numbers to categorical responses is to translate it into:

- (A) String data
- (B) Processed data
- (C) Numeric data
- (D) Raw data.

**Question Number : 14 Question Id : 4165294414 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Sum of the values of all the items divided by the total number of items is known as :

- (A) Mean
- (B) Median
- (C) Mode
- (D) Range

**Question Number : 15 Question Id : 4165294415 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

A pie chart is a circular chart divided into sectors. Together, the sectors create an angle of:

- (A) 180°
- (B) 280°
- (C) 360°
- (D) 460°

**Question Number : 16 Question Id : 4165294416 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Use of passive voice is preferred in writing the research report.

- (A) True
- (B) False

**Question Number : 17 Question Id : 4165294417 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Use of present tense is preferred in writing the research report.

- (A) True
- (B) False

**Question Number : 18 Question Id : 4165294418 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

A substantive part of social work research is concerned with:

- (A) Micro-level practice.
- (B) Macro-level practice
- (C) Meso-level practice
- (D) Survey research

**Question Number : 19 Question Id : 4165294419 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Qualitative research follows.....paradigm.

- (A) Positivist paradigm
- (B) Feminist paradigm
- (C) Interpretivist paradigm
- (D) Property-Disposition paradigm

**Question Number : 20 Question Id : 4165294420 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

To establish cause-effect relationships one needs to use.....design

- (A) Exploratory
- (B) Descriptive
- (C) Experimental
- (D) Explanatory

**Question Number : 21 Question Id : 4165294421 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Operationalization of variables in social research means :

- (A) Making the variables measurable.
- (B) Making the variables simple to understand.
- (C) Arranging the variables in a logical order.
- (D) Making the variables fit for research.

**Question Number : 22 Question Id : 4165294422 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Pilot study refers to a :

- (A) Preliminary study conducted on a limited scale before the original study.
- (B) Preliminary testing of the tools used for the Research.
- (C) Follow up study done within a year after the original study.
- (D) Macro-level study undertaken to test the hypotheses.

**Question Number : 23 Question Id : 4165294423 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

An educated guess about the nature of the relationship between two or more variables is termed as :

- (A) Antithesis
- (B) Hypothesis
- (C) Generalization
- (D) Prognosis

**Question Number : 24 Question Id : 4165294424 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

A complete, accurate, and up-to-date list of all the units in population is called a:

- (A) Sampling frame.
- (B) Target population
- (C) Optimum sample
- (D) Representative sample.

**Question Number : 25 Question Id : 4165294425 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Questions that push or pull the client towards a certain response are called :

- (A) Closed -end Questions
- (B) Leading Questions
- (C) Open-ended Questions
- (D) Threatening question

**Question Number : 26 Question Id : 4165294426 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

When two or more than two questions are included in one question it is termed as

- (A) Double- barrelled question.
- (B) Threatening question
- (C) Leading question
- (D) Dichotomous question

**Question Number : 27 Question Id : 4165294427 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Which one of the following is not a type of interview?

- (A) Structured interview.
- (B) Un-structured interview
- (C) Group interview
- (D) Case study

**Question Number : 28 Question Id : 4165294428 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Which one of the following tools of data collection is the most common tool for obtaining data in quantitative research?

- (A) Observation
- (B) Interview
- (C) Questionnaire
- (D) Case study

**Question Number : 29 Question Id : 4165294429 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Data entered in master chart are :

- (A) Raw data
- (B) Processed data
- (C) Coded data
- (D) Tabulated data

**Question Number : 30 Question Id : 4165294430 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

'F' test is a:

- (A) Reliability test
- (B) Non-parametric test
- (C) Parametric tests
- (D) Validity tests

**Question Number : 31 Question Id : 4165294431 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

The values of Mean, Median and Mode are equal

- (A) In a normal distribution
- (B) In a skewed distribution
- (C) In a binominal distribution
- (D) In an abnormal distribution

**Question Number : 32 Question Id : 4165294432 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

If proportions are multiplied by 100 , it is called :

- (A) Percentage
- (B) Ratio
- (C) Coefficient
- (D) Index.

**Question Number : 33 Question Id : 4165294433 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Which one of the following measures of dispersion is considered as most representative?

- (A) Quartile deviation
- (B) Mean deviation
- (C) Standard deviation
- (D) Range.

**Question Number : 34 Question Id : 4165294434 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

.....are used to enclose words or texts cited from a book / article.

- (A) Quotation marks or inverted commas
- (B) Punctuation marks
- (C) Exclamation marks
- (D) Asterisks marks

**Question Number : 35 Question Id : 4165294435 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

The research report should be :

- (A) Very concise
- (B) Ambiguous
- (C) Lengthy
- (D) Un-creative.

**Question Number : 36 Question Id : 4165294436 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Which one of the following tests is not a non-parametric test?

- (A) Kolmogorov-Smirnov test
- (B) Wilcoxon test,
- (C) Mann-Whitney
- (D) T-test

**Question Number : 37 Question Id : 4165294437 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

The use of personal pronouns like "I", "We" etc., should be avoided in writing research report.

- (A) True
- (B) False

**Question Number : 38 Question Id : 4165294438 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Wilcoxon signed-rank test is used to compare:

- (A) Two related samples
- (B) Two independent samples
- (C) Three related samples
- (D) Three related samples

**Question Number : 39 Question Id : 4165294439 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

In quantitative research, usually, the hypothesis is formulated based on:

- (A) Observation
- (B) Field study
- (C) Theory
- (D) Personal experience

**Question Number : 40 Question Id : 4165294440 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Single subject research design is also known as:

- (A) Intervention Research Design
- (B) Mixed Method Research Design
- (C) Multiple Method Research Design
- (D) Qualitative Research Design

**Question Number : 41 Question Id : 4165294441 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Consider the following statements and answer according to the codes given below :

**Assertion (A):** There is no substantial difference between Social Work Research and Social Science Research.

**Reason (R):** Social Science Research and Social Work Research deal with the same social realities.

- (A) Both (A) and (R) are true and (R) is a correct explanation of (A).
- (B) Both (A) and (R) are not true
- (C) (A) is true but (R) is not true
- (D) (A) is not true but (R) is true

**Question Number : 42 Question Id : 4165294442 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

When we acquire knowledge through an alternative method (methods other than the method of research), we are often unaware of our :

- (A) Qualification.
- (B) Experience
- (C) Maturity
- (D) Biases

**Question Number : 43 Question Id : 4165294443 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

A school of thought (or paradigm) known as 'positivism' was established by :

- (A) Auguste Comte
- (B) Lundeberg
- (C) Wilkinson
- (D) Maslow

**Question Number : 44 Question Id : 4165294444 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Qualitative researchers do not believe in value free enquiry.

- (A) True
- (B) False

**Question Number : 45 Question Id : 4165294445 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Quantitative researchers use .....to test hypothesis:

- (A) Statistical Tests
- (B) Reliability Tests
- (C) Validity Tests
- (D) Common Tests

**Question Number : 46 Question Id : 4165294446 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Integrated method of research is also known as:

- (A) Probability method
- (B) Mixed method
- (C) Non-probability method
- (D) Triangulation method

**Question Number : 47 Question Id : 4165294447 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Integrated method of research relies on the presentation of facts through:

- (A) Numbers only
- (B) Words only
- (C) Numbers and words
- (D) Graphs only

**Question Number : 48 Question Id : 4165294448 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Which one of the following is the essential step of social work research?

- (A) Hypothesis Formulation
- (B) Intervention
- (C) Sampling
- (D) Generalisation

**Question Number : 49 Question Id : 4165294449 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Theory testing is the goal of .....

- (A) Quantitative Research
- (B) Qualitative Research
- (C) Social work research
- (D) Practice Based Research

**Question Number : 50 Question Id : 4165294450 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Repeated measures of the dependent variable before and after a particular intervention is the specific feature of:

- (A) Single subject Research Designs
- (B) Descriptive Research Designs
- (C) Exploratory Research Designs
- (D) Longitudinal Research Designs

**Question Number : 51 Question Id : 4165294451 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Which one of the following designs are used to evaluate the impact of changes in the intervention and modify the intervention that does not appear to be effective?

- (A) AB Single Subject Research Designs
- (B) ABA Single Subject Research Designs
- (C) ABAB Single Subject Research Designs
- (D) ABCD Single Subject Research Designs

**Question Number : 52 Question Id : 4165294452 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

In Case Study Design the unit of investigation may be:

- (A) an individual only,
- (B) an individual only or a group of individuals only,
- (C) an individual only or a social institution only,
- (D) an individual only or a group of individuals only or a social institution only

**Question Number : 53 Question Id : 4165294453 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Case Study Design is a qualitative research design.

- (A) True,
- (B) False

**Question Number : 54 Question Id : 4165294454 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Action research is:

- (A) A pure research
- (B) An applied research
- (C) A mixed research
- (D) A historical research

**Question Number : 55 Question Id : 4165294455 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

The major goal of evaluation research designs is:

- (A) To ascertain the Effectiveness of a Programme
- (B) Hypothesis testing
- (C) Theory building
- (D) Planning of a programme

**Question Number : 56 Question Id : 4165294456 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

An..... helps to explain the apparent association between variables:

- (A) Cause variable
- (B) Effect variable
- (C) Antecedent variable
- (D) Confounding variable

**Question Number : 57 Question Id : 4165294457 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Which one of the following concepts is non-observable fact?

- (A) A tree
- (B) A book
- (C) A woman
- (D) Empowerment

**Question Number : 58 Question Id : 4165294458 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Which one of the following concepts is observable fact?

- (A) Satisfaction
- (B) Quality of life
- (C) Motivation
- (D) Self-help groups

**Question Number : 59 Question Id : 4165294459 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Scales/indexes are used in.....method of research

- (A) Quantitative
- (B) Qualitative
- (C) Integrated
- (D) Historical Research

**Question Number : 60 Question Id : 4165294460 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Disengagement Theory was propounded by

- (A) Cumming and Henry
- (B) Havigrust
- (C) Lev Vgotsky
- (D) Ericson

**Question Number : 61 Question Id : 4165294461 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Consider the following statements and select your answer according to the codes given below :

Assertion (A): In quantitative research, researchers prefer random sampling method.

Reason (R): One can use statistical methods and generalise findings.

- (A) Both (A) and (R) are true.
- (B) Both (A) and (R) are not true
- (C) (A) is true but (R) is false
- (D) (A) is not true but (R) is true

**Question Number : 62 Question Id : 4165294462 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Rejecting a null hypothesis when it is true is called:

- (A) Type I error
- (B) Type II error
- (C) Sampling error
- (D) Non-sampling error

**Question Number : 63 Question Id : 4165294463 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Failing to reject a null hypothesis when it is false is termed as:

- (A) Type I error
- (B) Type II error
- (C) Sampling error
- (D) Non-sampling error

**Question Number : 64 Question Id : 4165294464 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

In qualitative research which one of the following sampling methods is preferred:

- (A) Probability
- (B) Non-probability
- (C) Random
- (D) Stratified

**Question Number : 65 Question Id : 4165294465 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

In social science researches, confidence interval is usually set at :

- (A) 85 %
- (B) 90%
- (C) 95%
- (D) 99%.

**Question Number : 66 Question Id : 4165294466 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

In the hierarchy of the level of measurement, ratio level is at the :

- (A) Bottom
- (B) Middle
- (C) Third level
- (D) Top

**Question Number : 67 Question Id : 4165294467 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Social Distance Scale was developed by;

- (A) Thurstone
- (B) Bogardus
- (C) Likert
- (D) Wellington

**Question Number : 68 Question Id : 4165294468 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Scaling based on the law of comparative judgment is associated with:

- (A) Thurstone
- (B) Bogardus
- (C) Likert
- (D) Wellington

**Question Number : 69 Question Id : 4165294469 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

The term 'Gallery' is associated with:

- (A) Frequency tables
- (B) Cross tabs
- (C) Graphs
- (D) Data defining

**Question Number : 70 Question Id : 4165294470 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Data collected by non-governmental organisation by a questionnaire about health status of community people is a:

- (A) Primary data
- (B) Secondary data
- (C) Tertiary data
- (D) Statistical data

**Question Number : 71 Question Id : 4165294471 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Method of analyzing the content of newspaper articles :

- (A) Secondary analysis
- (B) Primary analysis
- (C) Content analysis
- (D) Meta analysis

**Question Number : 72 Question Id : 4165294472 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Which one of the following is not the step of content analysis:

- (A) Selecting the media
- (B) Constructing a coding scheme
- (C) Deciding the coder's reliability
- (D) Drawing statistical inference

**Question Number : 73 Question Id : 4165294473 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

To test a hypothesis we need to .....

- (A) Cross tabulate two variables
- (B) Generate a frequency table
- (C) Recategorise a variable
- (D) Reclassify a variable

**Question Number : 74 Question Id : 4165294474 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

An analytic models shows interaction between.....

- (A) Two variables
- (B) Two sets of data
- (C) Two sets of statistical results
- (D) Two types of data

**Question Number : 75 Question Id : 4165294475 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Consider the following statements and answer according to the codes given below : Assertion (A): There is no difference between Single Subject Design and Case Study Design.

Reason (R): Unit of study of Single Subject Design and Case Study Design is one.

- (A) Both (A) and (R) are true and (R) is a correct explanation of (A).
- (B) Both (A) and (R) are not true
- (C) (A) is true but (R) is not true
- (D) is not true but (R) is true

**Question Number : 76 Question Id : 4165294476 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

The Chi-square test of association is between two:

- (A) categorical variables
- (B) numerical variables
- (C) discrete variables
- (D) Continuous variables

**Question Number : 77 Question Id : 4165294477 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

When calculated value of Chi-square is more than the table value of Chi-square:

- (A) We accept the null hypothesis
- (B) We reject the null hypothesis
- (C) We accept the research hypothesis
- (D) We reject the research hypothesis

**Question Number : 78 Question Id : 4165294478 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Karl Pearson's correlation coefficient is also known as:

- (A) product - moment correlation
- (B) Rank-difference method of correlation
- (C) Partial coefficient of correlation
- (D) Spearman's Rho

**Question Number : 79 Question Id : 4165294479 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

.....is a mathematical process of adjustment of the bi-variate correlation, to nullify the effect of third variable.

- (A) Product - moment correlation
- (B) Spearman's rho
- (C) Partial coefficient of correlation
- (D) Rank-difference method of correlation

**Question Number : 80 Question Id : 4165294480 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Coefficient of correlation ranging from 1 to 0.7 is considered as indication of:

- (A) 'High' correlation
- (B) Low correlation
- (C) Moderate correlation
- (D) Negligible correlation

**Question Number : 81 Question Id : 4165294481 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

'T' tests are applied on:

- (A) Nominal data
- (B) verbal data
- (C) Visual data
- (D) Interval and ratio data

**Question Number : 82 Question Id : 4165294482 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

'F- test is applied on:

- (A) Nominal data
- (B) verbal data
- (C) Visual data
- (D) Interval and ratio data

**Question Number : 83 Question Id : 4165294483 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Mann-Whitney U test is used to compare:

- (A) Two related samples
- (B) Two independent samples
- (C) One sample with another sample
- (D) Multiple samples

**Question Number : 84 Question Id : 4165294484 Question Type : MCQ Option Shuffling : No Display Question Number : Yes**  
**Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

.....is used to determine the amount of agreement or otherwise between the observed frequencies and expected frequencies:

- (A) Kolmogorov-Smirnov test
- (B) Two related samples
- (C) Two independent samples
- (D) One sample with another sample

**Question Number : 85 Question Id : 4165294485 Question Type : MCQ Option Shuffling : No Display Question Number : Yes**  
**Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Method of science is the most commonly used method of knowing because knowledge attained through science is subjected to:

- (A) Empirical tests.
- (B) Oral tests
- (C) Field tests
- (D) Logical tests

**Question Number : 86 Question Id : 4165294486 Question Type : MCQ Option Shuffling : No Display Question Number : Yes**  
**Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Hypothesis is essential in quantitative descriptive research

- (A) True
- (B) False

**Question Number : 87 Question Id : 4165294487 Question Type : MCQ Option Shuffling : No Display Question Number : Yes**  
**Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

In-depth study is the essence of qualitative research.

- (A) True
- (B) False

**Question Number : 88 Question Id : 4165294488 Question Type : MCQ Option Shuffling : No Display Question Number : Yes**  
**Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

When we know about a research problem and we wish to add more about it , we adapt:

- (A) Exploratory Research Design.
- (B) Descriptive Research Design
- (C) Explanatory Research Design
- (D) Experimental Research Design

**Question Number : 89 Question Id : 4165294489 Question Type : MCQ Option Shuffling : No Display Question Number : Yes**  
**Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

"Have you stopped beating your wife ia a :

- (A) Double-barrelled questions.
- (B) Threatening question
- (C) Leading questions
- (D) Factual questions

**Question Number : 90 Question Id : 4165294490 Question Type : MCQ Option Shuffling : No Display Question Number : Yes**  
**Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Are you satisfied with your job is a :

- (A) Double-barrelled questions.
- (B) Threatening question
- (C) Leading questions
- (D) Factual questions

**Question Number : 91 Question Id : 4165294491 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

divides the data set into two equal halves:

- (A) Percentage
- (B) Proportions
- (C) Ratio
- (D) Median

**Question Number : 92 Question Id : 4165294492 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Social Work Research is a:

- (A) Practice based research
- (B) Feminist research
- (C) Pure research
- (D) Survey research

**Question Number : 93 Question Id : 4165294493 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Social Work Research is also called as :

- (A) Intervention research
- (B) Action research
- (C) Evaluation research
- (D) Experimental research

**Question Number : 94 Question Id : 4165294494 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Which one of the following is not a research design?

- (A) Exploratory
- (B) Descriptive
- (C) Experimental
- (D) Social Survey

**Question Number : 95 Question Id : 4165294495 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Frequencies based on an assumption is called:

- (A) Expected Frequencies
- (B) Observed Frequencies
- (C) Cumulative Frequencies
- (D) Summated frequencies

**Question Number : 96 Question Id : 4165294496 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Data collected by a questionnaire from the respondents are called;

- (A) Expected Frequencies
- (B) Observed Frequencies
- (C) Cumulative Frequencies
- (D) Summated frequencies

**Question Number : 97 Question Id : 4165294497 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

When calculated value of Chi-square is more than the table value of Chi-square:

- (A) We accept the null hypothesis
- (B) We reject the null hypothesis
- (C) We accept the research hypothesis
- (D) We reject the research hypothesis

**Question Number : 98 Question Id : 4165294498 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Pearson's Coefficient of correlation is calculated to measure correlation between two:

- (A) Numeric variables
- (B) Categorical variables
- (C) String variables
- (D) Nominal variables

**Question Number : 99 Question Id : 4165294499 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

For ordinal data we need to apply :

- (A) Rank-difference method of correlation
- (B) Pearson's coefficient of correlation
- (C) Partial coefficient of correlation
- (D) Spearman's Rho

**Question Number : 100 Question Id : 4165294500 Question Type : MCQ Option Shuffling : No Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical**

**Correct Marks : 1 Wrong Marks : 0**

Student's 't' tests is :

- (A) Non-Parametric tests
- (B) Non-statistical test
- (C) Parametric tests
- (D) Validity tests
