Read the following passage and answer these questions.

The hostel has a policy that searches can be conducted on an employee's locker, desk or hostel-owned vehicle at any time, with or without the employee's presence. Security Officer is asked by his employer to search the desk of the hostel controller, an elected official, due to the report of a hostel worker that the hostel controller was seen smoking marijuana behind the hostel building and putting a baggie with a green leafy substance in his desk about one hour ago. When the hostel controller's secretary refused to allow the search, Security Officer showed the secretary a written copy of the hostel policy. The secretary called the hostel controller, who was out on a job site, inspecting a hostel owned warehouse. He informed the secretary to refuse the search on the basis that he is an elected official. Security Officer forced his way past the secretary and went through the hostel controller's desk. Nothing incriminating was found. The secretary sustained a broken arm as a result of the incident. The hostel worker who reported the hostel controller was known to have much animosity toward the hostel controller because the hostel controller suspended the hostel worker the previous month for tardiness.

Read the following scenario and answer these questions.

In an effort to cut down on traffic and air pollution in the center of town, an ordinance is enacted and signed by the mayor of the city municipal corporation that forbids certain size trucks from entering the city limits, except delivery trucks which have either to drop off or pick up goods or other materials from local businesses or residences. To enter the city, delivery vehicles must first obtain a special permit from the office of licenses and permits and display the permit on the front windshield. The ordinance authorizes the police to challan any truck in the city not displaying a permit.

On May 2nd, Police officer saw a truck go by him in the town without a permit displayed. He pulled the truck over and questioned the driver. The driver said he was from out-of-town and was not aware of the ordinance. Police officer gave the driver a warning and told him to either drive out of the city or, if he was making a delivery, to go to the office of license and permits to get a permit. The driver was compliant and drove out of the town. On May 10th, Police officer saw the same truck and driver in the town, again without the required permit. The driver apologized and said he did not know he was in the city limits. Police officer challaned the driver.

The driver appealed his challan and a hearing was held in the city on May 28th. The judge was not sympathetic to the driver's excuse, as there was a sign giving notice of the city limit just down the street that the driver had passed when entering the city limits. When Police officer was leaving the courthouse, he noticed the driver had parked his truck in a lot down the street. Police officer was surprised to see that the truck failed to display the required permit. Police officer put a challan on the front windshield of the truck and went about his day.
