The ridge at this point about fifty yards wide, and as the hut was on the south edge of the ridge, and the village on the north face of the hill, the latter was not visible from the former. I had been sitting on the rock for ten minutes when a head appeared over the crest from the direction of the village, followed by a second and a third. My friend the water-carrier had not been slow in informing the village of my arrival.

When strangers meet in India and wish to glean information from each other on any particular subject, it is customary to refrain from broaching the subject that has brought them together - whether accidentally or of set purpose - until the very last moment and to fill up the interval by finding out everything concerning each other's domestic and private affairs; as, for instance, whether married and if so the number and sex of children and their ages; if not married, why not; occupation and amount of pay, and so on. Questions that would in any other part of the world earn one a thick ear, are in India - and especially in our hills - asked so artlessly and universally that no one who has lived among the people, dreams of taking offence at them.

Where was the narrator sitting when he saw someone coming?

- (1) the rock
- (2) the crest
- (3) the ridge
- (4) the hill

In 1984, the French and the British agreed that a link across the English Channel would be mutually beneficial. However, both the Governments realised that although the project would create the much needed jobs, neither country's Government could fund such a massive project. Thus, they decided to hold a contest.

This contest invited companies to submit their plan to create a link across the English Channel. As part of the contest's requirements, the submitting company was to provide a plan to raise the needed funds to build the project, have the ability to operate the proposed Channel link once the project was completed, and the proposed link must be able to endure for at least 120 years.

Ten proposals were submitted, including various tunnels and bridges. Some of the proposals were so outlandish in design that they were easily dismissed; others would be so expensive that they were unlikely to ever be completed. The successful proposal planned for a tunnel made up of two, parallel railway tunnels that would be dug under the English Channel. Between these two railway tunnels would run a third, smaller tunnel that would be used for maintenance, including drainage pipes, communication cables etc.

After the first testrun on 10 December 1993, the Channel Tunnel officially opened on 6 may 1994. What did the context involving the competing companies require? Choose the incorrect option.

- (1) The companies were supposed to provide a plan to raise the needed funds to build the project.
- (2) The companies were expected to operate the proposed channel link once the project was completed.
- (3) The link across the English Channel was supposed to be outlandish. The companies were asked to keep that in mind.
- (4) The link must be able to endure for at least 120 years.

When I was a small child my grandparents would take me blackberry picking. It was usually late August when the blackberries had fully ripened. Grandad would drive us is in his old van. Despite not being comfortable or particularly safe, Grandad's van had a character you would not find in sleek new car complete with the latest innovations and a silent engine. Being seven or eight at the time, I always enjoyed a trip as we bounced along to our destination.

My grandparents always chose the same spot. Wild blackberry bushes stretched along the roadside as far as the eye could see in the both directions. The road overlooked a small pitch and putt course. On such sunny summer days it was always full. Golfers ambled sedately from hole and the crack of metal striking ball was a constant accompaniment.

Several hours of picking berries ensured. Nana warned me not to eat any until they had all been washed but turned a knowing blind eye while I gorged anyway. I also helped myself to the occasional unripe red berry as I had a particular taste for anything bitter. The fully immature green berries proved a step too far for even my pallet and were merely unpleasant.

When at last we were finished the bright scenery had turned to lengthy shadows and the afternoon had elapsed into evening. Grandad hauled a bin bag half full of berries back to the van. Juice bled slowly onto the ground. Nana would later make apple and blackberry tarts and fill several jars with jam. When I reached the van my stomach hurt from too much fruit. My hands stung from constant thorn pricks and were strained dark purple. I always enjoyed those days.

Arrange the sentences in its order of occurrence:

- (A) Nana warned me not to eat any until they had all been washed but turned a knowing blind eye while I gorged anyway.
- (B) I always enjoyed a trip as we bounced along to our destination.
- (C) The road overlooked a small pitch and putt course.
- (D) Nana would later make apple and blackberry tarts.
- (E) Grandad's van had a character you would not find in a sleek new car.

Choose the correct answer from the options given below:

- (1) (B), (E), (A), (C), (D)
- (2) (C), (B), (E), (A), (D)
- (3) (E), (B), (C), (A), (D)
- (4) (D), (A), (E), (B), (C)

Comprehension	Comp3

Read the following passage. Answer questions:

When I was a small child my grandparents would take me blackberry picking. It was usually late August when the blackberries had fully ripened. Grandad would drive us is in his old van. Despite not being comfortable or particularly safe, Grandad's van had a character you would not find in sleek new car complete with the latest innovations and a silent engine. Being seven or eight at the time, I always enjoyed a trip as we bounced along to our destination.

My grandparents always chose the same spot. Wild blackberry bushes stretched along the roadside as far as the eye could see in the both directions. The road overlooked a small pitch and putt course. On such sunny summer days it was always full. Golfers ambled sedately from hole and the crack of metal striking ball was a constant accompaniment.

Several hours of picking berries ensured. Nana warned me not to eat any until they had all been washed but turned a knowing blind eye while I gorged anyway. I also helped myself to the occasional unripe red berry as I had a particular taste for anything bitter. The fully immature green berries proved a step too far for even my pallet and were merely unpleasant.

When at last we were finished the bright scenery had turned to lengthy shadows and the afternoon had elapsed into evening. Grandad hauled a bin bag half full of berries back to the van. Juice bled slowly onto the ground. Nana would later make apple and blackberry tarts and fill several jars with jam. When I reached the van my stomach hurt from too much fruit. My hands stung from constant thorn pricks and were strained dark purple. I always enjoyed those days.

How would you describe the given passage?

- (1) The narrator is nostalgic and missed his deceased grandparents.
- (2) The narrator has fond memories of picking blueberries with his grandparents.
- (3) The narrator hurt his hand and was fatally injured during his trip with his grandparents.
- (4) The narrator reveals details about his grandparents blueberries jam business.

जैल इलेक्ट्रोफोरेसिस के निम्नलिखित पदों को सही क्रमबद्ध करें:

- (A) DNA को ऐथीडियम ब्रोमाइड से अमिरजित करना
- (B) DNA सूत्र का ऐग्रोज की उपस्थिति में विद्युतक्षेत्र में ऐनोड की ओर गमन
- (C) पराबैंगनी विकिरण से सम्पर्क
- (D) डी.एन.ए. गुण सूत्रका उसके आकार के अनुसार प्रथक्करण निम्नलिखित विकल्पों में से **सही** उत्तर का चयन कीजिए :
- (1) (B), (D), (A), (C)
- (2) (C), (A), (D), (B)
- (3) (B), (A), (C), (D)
- (4) (A), (D), (B), (C)

Options:

Read the passage below and answer the following question:

BEHAVIOURAL AND PSYCHOLOGICAL CORRELATES OF ILLNESS: THE EFFECTS OF THOUGHTS AND ACTIONS ON HEALTH

- Cancer is actually a group of diseases characterized by a loss of some cells' ability to function normally. These cells typically multiply rapidly, generating tumours.
- Individual differences in people's reaction to nicotine, the addictive substance in tobacco, help determine who will become a smoker.
- Both smoking and passive smoking are implicated in many cancers, in cardiovascular disease, and in sickness among children. Poor diet can raise our risks of cancer of the colon and rectum, breast cancer, and cardiovascular disease. Heavy drinking can cause disease of the stomach, liver and intestines. It can also impair mental and sexual functioning, and it can result in fetal alcohol syndrome.
- Inadequate emotional expression can adversely affect the progression of cancer. Emotions
 also affect high blood pressure.
- Persons who tend to be competitive, aggressive, hostile, and impatient are displaying a pattern
 of behaviours termed Type A. Cynical hostility puts Type A persons most at risk for heart
 attacks.
- Acquired Immuno Deficiency Syndrome (AIDS) is a reduction in the immune system's ability to defend itself against foreign matter. AIDS is transmitted primarily through unprotected sex and infected blood.

Which cells are attacked by the Human Immuno Deficiency Virus (HIV) causing Acquired Immuno Deficiency Syndrome (AIDS) ?

- (1) B cells
- (2) T-helper cells
- (3) Natural Killer cells
- (4) leucocytes

रोग के व्यवहारिक एवं मनोवैज्ञानिक संबंध : स्वास्थ्य पर विचारों और कार्यों का प्रभाव

- कैंसर वास्तव में रोगों का एक समूह है जिसको कुछ कोशिकाओं की सामान्य रूप से कार्य कर पाने की योग्यता में ह्यस के रूप में दर्शाया जाता है। ये कोशिकाएं सामान्यत: तेजी से गुणित होती और ट्यूमर पैदा करती है।
- निकोटिन, तंबाकू में नशीला पदार्थ के प्रति लोगों की अनुक्रिया में व्यैक्तिक विभेद यह निर्धारित करते हैं कि कौन धूम्रपान करने वाला बनेगा।
- धूम्रपान और निष्क्रिय धूम्रपान दोनों ही कई तरह के कैंसर, हृदय रोग और बच्चों की बीमारियों में शामिल है। खराब खानपान कोलन और मलाशय के कैंसर, स्तन कैंसर और हृदय रोग के जोखिम को बढ़ाता है। बहुत अधिक मद्यपान पेट, यकृत और आंतों के रोग का कारण बन सकता है। यह मानिसक और यौन क्रियात्मकता को भी क्षित पहुँचा सकता है तथा इसका परिणाम भूर्ण मद्य सिंड्रोम होता है।
- अपर्याप्त भावात्मक अभिव्यक्ति कैंसर की प्रगति को नकारात्मक रूप से प्रभावित कर सकती है। संवेग उच्च रक्त चाप को भी प्रभावित करते हैं।
- वे लोग जो प्रतिस्पर्धी, आक्रामक विरोधी और अधीर होते हैं टाईप A प्रकार के व्यवहार प्रतिरूपों को प्रदर्शित करते हैं। द्वेषपूर्ण शत्रुता टाईप A प्रकार के लोगों को हृदयाघात के अधिक जोखिम पर रखती हैं।
- Acquired Immuno Deficiency Syndrome (AIDS) प्रतिरोधी तंत्र की बाहरी आघातों से प्रतिरोध क्षमता में हास है। AIDS मुख्य रूप से असुरक्षित यौन संबंध और दूषित रक्त से संचारित होता है।

कौन-सी कोशिकाओं पर ह्यूमन इम्यूनों डेफिशियंसी वायरस द्वारा आक्रमण किया जाता है जिसका परिणाम एक्वायरड इम्यूनों डेफिशियंसी सिंड्रोम (AIDS) होता है?

- (1) B कोशिकाएं

Read the passage below and answer the following question:

BEHAVIOURAL AND PSYCHOLOGICAL CORRELATES OF ILLNESS: THE EFFECTS OF THOUGHTS AND ACTIONS ON HEALTH

- Cancer is actually a group of diseases characterized by a loss of some cells' ability to function normally. These cells typically multiply rapidly, generating tumours.
- Individual differences in people's reaction to nicotine, the addictive substance in tobacco, help determine who will become a smoker.
- Both smoking and passive smoking are implicated in many cancers, in cardiovascular disease, and in sickness among children. Poor diet can raise our risks of cancer of the colon and rectum, breast cancer, and cardiovascular disease. Heavy drinking can cause disease of the stomach, liver and intestines. It can also impair mental and sexual functioning, and it can result in fetal alcohol syndrome.
- Inadequate emotional expression can adversely affect the progression of cancer. Emotions
 also affect high blood pressure.
- Persons who tend to be competitive, aggressive, hostile, and impatient are displaying a pattern
 of behaviours termed Type A. Cynical hostility puts Type A persons most at risk for heart
 attacks.
- Acquired Immuno Deficiency Syndrome (AIDS) is a reduction in the immune system's ability to defend itself against foreign matter. AIDS is transmitted primarily through unprotected sex and infected blood.

Increased intake of addictive substance like nicotine tobacco and alcohol due to stress is a/an effect of stress on psychological functioning and health.

- (1) Emotional
- (2) Physiological
- (3) Cognitive
- (4) Behavioural

Read the passage and answer the following questions given below:

The Meghalaya Succession Act (passed by an all-male Meghalaya legislative assembly) received the President's assent in 1986. The Succession Act applies specifically to the Khasi and Jaintia tribes of Meghalaya and confers on 'any Khasi and Jaintia of sound mind not being a minor, the right to dispose of his self-acquired property by will'. The practice of making out a will does not exist in Khasi custom. Khasi custom prescribes the devolution of ancestral property in the female line.

There is a feeling, specially among the educated Khasi, that their rules of kinship and inheritance are biased in favour of women and are too restrictive. The Succession Act is therefore seen as an attempt at removing such restrictions and at correcting the perceived female bias in the Khasi tradition. To assess whether the popular perception of female bias in the Khasi tradition is indeed valid, it is necessary to view the Khasi matrilineal system in the context of the prevalent gender relations and definitions of gender roles.

Several scholars have highlighted the inherent contradictions in matrilineal systems. One such contradiction arises from the separation of the line of descent and inheritance on the one hand and the structure of authority and control on the other. The former, which links the mother to the daughter, comes in conflict with the latter, which links the mother's brother to the sister's son. (In other words, a woman inherits property from her mother and passes it on to her daughter, while a man controls his sister's property and passes on control to his sister's son. Thus, inheritance passes from mother to daughter whereas control passes from (maternal) uncle to nephew.

Khasi matriliny generates intense role conflict for men. They are torn between their responsibilities to their natal house on the one hand, and to their wife and children on the other. In a way, the strain generated by such role conflict affects Khasi women more intensely. A can never be fully assured that her husband does not find his sister's house a more congenial place woman than her own. Similarly a sister will be apprehensive about her brother's commitment to her welfare because the wife with whom he lives can always pull him away from his responsibilities to his natal house.

The women are more adversely affected than men by the role conflict generated in the Khasi matrilineal system not only because men wield power and women are deprived of it, but also because the system is more lenient to men when there is a transgression of rules. Women possess only token authority in Khasi society; it is men who are the defacto power holders. The system is indeed weighted in favour of male matri-kin rather that male patri-kin. (In other words, despite matriliny, men are the power holders in Khasi society; the only difference is that a man's relatives on his mother's side matter more than his relatives on his father's side.)

In which year did Meghalaya succession Act received the President's assent?

गद्यांश को पढ़ें और निम्नलिखित प्रश्न का उत्तर दें :

मेघालय उत्तराधिकार अधिनियम (मेघालय विधानसभा, जिसके सभी सदस्य पुरुष ही थे, द्वारा पारित) को 1986 में राष्ट्रपति से स्वीकृति मिली। अधिनियम विशेष तौर पर खासी और जैन्तिया जनजाति पर लागू होता है और 'उस खासी या जैन्तिया व्यक्ति पर मान्य है जो बुद्धि से सबल है और अल्पआयु नहीं है; उस व्यक्ति को अपनी खुद की बनाई हुए जायदाद की वसीयत बनाने का अधिकार है'। वसीयत बनाने की प्रथा, खासियों में नहीं है। खासी प्रथा मातृ वंशज के आधार पर जायदाद को अमुक स्त्री को सुपुर्द किए जाने की बात करती है।

खासियों में विशेषत: पढ़े-लिखे खासियों को ऐसा प्रतीत होता है कि उनके संबंधों और उत्तराधिकार के नियम, स्त्रियों के पक्ष में हैं और अपने आप में सीमित भी हैं। अत: यह अधिनियम खासी परंपरा में व्याप्त महिलाओं के पक्ष में किए गए पक्षपात को ठीक कर इस सीमितता को समाप्त करने का एक प्रयास है। यह परखने के लिए कि क्या ये प्रचलित बोधता-जो खासी परंपरा में स्त्रियों के प्रति पक्षपात की बात करती है, सही है कि नहीं, यह ज़रूरी है कि खासी मातृवंशीय व्यवस्था को व्यावहारिक लिंग-संबंधों और लिंग भूमिकाओं की परिभाषाओं के संदर्भ में देखा जाए।

कई विशेषज्ञों ने मातृवंशीय व्यवस्थाओं में अंतर्निहित विरोधाभासों पर ध्यान केंद्रित किया है। एक ऐसा विरोधाभास वंशानुक्रम की रेखा और उत्तराधिकार एवं नियंत्रण और सत्ता की संरचना के अलगाव से उत्पन्न होता है। पहला संदर्भ जो माँ और बेटी को जोड़ता है और दूसरे संदर्भ के आ जाने से प्रतिद्वंद्विता की उत्पत्ति होती है पहला संदर्भ जो माँ और भाई को बहन के बेटे से जोड़ता है (दूसरे शब्दों में, एक स्त्री अपने माँ से जायदाद उत्तराधिकार में पाती है और आगे अपनी बेटी को देती है, जबिक एक पुरुष अपनी बहन की जायदाद पर नियंत्रण रखता है, और वो नियंत्रण अपनी बहन के बेटे को देता है। इस तरह संपत्ति का कानूनी उत्तराधिकार तो माँ से बेटी को जाता है पर व्यावहारिक रूप में यह अधिकार मामा से भानजे को जाता है।

खासी मातृवंश पुरुषों के लिए गहन भूमिका द्वंद्व की स्थिति उत्पन्न करता है। वो अपनी पत्नी और बच्चों एवं जन्म के घर की जिम्मेदारियों के बीच बँट जाते हैं। एक तरह से भूमि के-द्वंद्व द्वारा उत्पन्न इस तनाव का असर खासी स्त्रियों पर बहुत ज्यादा पड़ता है। एक स्त्री कभी सुनिश्चित नहीं कर सकती कि उसके पित को उसकी बहन का कल्याण ज्यादा लगता लगता है या अपना स्वयं का। उसकी तरह, बहन सोचेगी कि शादीशुदा भाई अपनी बहन के प्रति जिम्मेदारियों को भूल जाएगा।

खासी मातृवंशीय व्यवस्था में उत्पन्न भूमि के-द्वंद्व से पुरुषों की बजाय, अंतत: स्त्रियाँ ज़्यादा गहन रूप से प्रभावित होती हैं, सिर्फ़ इसलिए नहीं, क्योंकि पुरुष अधिकारों के स्वामी हैं और स्त्रियाँ इससे वंचित हैं पर इसलिए भी क्योंकि समाज पुरुषों को नियम तोड़ने पर उनको कम सज़ा देता है या नज़र अंदाज़ कर देता है। खासी समाज में स्त्रियों के पास सिर्फ़ नाम का अधिकार होता है – असली अधिकार पुरुषों के हाथ में होता है। हाँ, इतना ज़रूर है कि यह व्यवस्था पुरुष के मातृ नातेदार की तरफ झुकी हुई है न कि पितृ–नातेदार की तरफ। (दूसरे शब्दों में मातृवंश के बावजूद, पुरुष ही खासी समाज में शक्ति के स्वामी हैं; सिर्फ़ एक अंतर है कि एक पुरुष के लिए उसकी माँ की तरफ़ के रिश्तेदारों का उसके पिता की तरफ़ के रिश्तेदारों से ज़्यादा महत्त्व होता है।)

मेघालय उत्तराधिकार अधिनियम को राष्ट्रपति से स्वीकृति कब मिली?

गद्यांश को पढें और निम्नलिखित प्रश्न का उत्तर दें :

मेघालय उत्तराधिकार अधिनियम (मेघालय विधानसभा, जिसके सभी सदस्य पुरुष ही थे, द्वारा पारित) को 1986 में राष्ट्रपति से स्वीकृति मिली। अधिनियम विशेष तौर पर खासी और जैन्तिया जनजाति पर लागू होता है और 'उस खासी या जैन्तिया व्यक्ति पर मान्य है जो बुद्धि से सबल है और अल्पआयु नहीं है; उस व्यक्ति को अपनी खुद की बनाई हुए जायदाद की वसीयत बनाने का अधिकार है'। वसीयत बनाने की प्रथा, खासियों में नहीं है। खासी प्रथा मातृ वंशज के आधार पर जायदाद को अमुक स्त्री को सुपुर्द किए जाने की बात करती है।

खासियों में विशेषत: पढ़े-लिखे खासियों को ऐसा प्रतीत होता है कि उनके संबंधों और उत्तराधिकार के नियम, स्त्रियों के पक्ष में हैं और अपने आप में सीमित भी हैं। अत: यह अधिनियम खासी परंपरा में व्याप्त महिलाओं के पक्ष में किए गए पक्षपात को ठीक कर इस सीमितता को समाप्त करने का एक प्रयास है। यह परखने के लिए कि क्या ये प्रचलित बोधता-जो खासी परंपरा में स्त्रियों के प्रति पक्षपात की बात करती है, सही है कि नहीं, यह ज़रूरी है कि खासी मातृवंशीय व्यवस्था को व्यावहारिक लिंग-संबंधों और लिंग भूमिकाओं की परिभाषाओं के संदर्भ में देखा जाए।

कई विशेषज्ञों ने मातृवंशीय व्यवस्थाओं में अंतर्निहित विरोधाभासों पर ध्यान केंद्रित किया है। एक ऐसा विरोधाभास वंशानुक्रम की रेखा और उत्तराधिकार एवं नियंत्रण और सत्ता की संरचना के अलगाव से उत्पन्न होता है। पहला संदर्भ जो माँ और बेटी को जोड़ता है और दूसरे संदर्भ के आ जाने से प्रतिद्वंद्विता की उत्पत्ति होती है पहला संदर्भ जो माँ और भाई को बहन के बेटे से जोड़ता है (दूसरे शब्दों में, एक स्त्री अपने माँ से जायदाद उत्तराधिकार में पाती है और आगे अपनी बेटी को देती है, जबिक एक पुरुष अपनी बहन की जायदाद पर नियंत्रण रखता है, और वो नियंत्रण अपनी बहन के बेटे को देता है। इस तरह संपत्ति का कानूनी उत्तराधिकार तो माँ से बेटी को जाता है पर व्यावहारिक रूप में यह अधिकार मामा से भानजे को जाता है।

खासी मातृवंश पुरुषों के लिए गहन भूमिका द्वंद्व की स्थिति उत्पन्न करता है। वो अपनी पत्नी और बच्चों एवं जन्म के घर की जिम्मेदारियों के बीच बँट जाते हैं। एक तरह से भूमि के-द्वंद्व द्वारा उत्पन्न इस तनाव का असर खासी स्त्रियों पर बहुत ज्यादा पड़ता है। एक स्त्री कभी सुनिश्चित नहीं कर सकती कि उसके पित को उसकी बहन का कल्याण ज्यादा लगता लगता है या अपना स्वयं का। उसकी तरह, बहन सोचेगी कि शादीशुदा भाई अपनी बहन के प्रति जिम्मेदारियों को भूल जाएगा।

खासी मातृवंशीय व्यवस्था में उत्पन्न भूमि के-द्वंद्व से पुरुषों की बजाय, अंतत: स्त्रियाँ ज्यादा गहन रूप से प्रभावित होती हैं, सिर्फ़ इसिलए नहीं, क्योंकि पुरुष अधिकारों के स्वामी हैं और स्त्रियाँ इससे वंचित हैं पर इसिलए भी क्योंकि समाज पुरुषों को नियम तोड़ने पर उनको कम सज़ा देता है या नज़र अंदाज़ कर देता है। खासी समाज में स्त्रियों के पास सिर्फ़ नाम का अधिकार होता है – असली अधिकार पुरुषों के हाथ में होता है। हाँ, इतना ज़रूर है कि यह व्यवस्था पुरुष के मातृ नातेदार की तरफ झुकी हुई है न कि पितृ–नातेदार की तरफ। (दूसरे शब्दों में मातृवंश के बावजूद, पुरुष ही खासी समाज में शक्ति के स्वामी हैं; सिर्फ़ एक अंतर है कि एक पुरुष के लिए उसकी माँ की तरफ़ के रिश्तेदारों का उसके पिता की तरफ़ के रिश्तेदारों से ज़्यादा महत्त्व होता है।

निम्नलिखित में से कौन-से रिवाज़ खासी समाज में प्रचलित हैं?

- (1) वसीयत बनाना
- (2) बहन की संपत्ति पर भाई द्वारा नियंत्रण
- (3) संपत्ति को मामा को हस्तांतरित करना
- (4) संपत्ति को भाँजे को हस्तांतरित करना

Comprehension	Comp1

Read the passage and answer the following questions given below:

The Meghalaya Succession Act (passed by an all-male Meghalaya legislative assembly) received the President's assent in 1986. The Succession Act applies specifically to the Khasi and Jaintia tribes of Meghalaya and confers on 'any Khasi and Jaintia of sound mind not being a minor, the right to dispose of his self-acquired property by will'. The practice of making out a will does not exist in Khasi custom. Khasi custom prescribes the devolution of ancestral property in the female line.

There is a feeling, specially among the educated Khasi, that their rules of kinship and inheritance are biased in favour of women and are too restrictive. The Succession Act is therefore seen as an attempt at removing such restrictions and at correcting the perceived female bias in the Khasi tradition. To assess whether the popular perception of female bias in the Khasi tradition is indeed valid, it is necessary to view the Khasi matrilineal system in the context of the prevalent gender relations and definitions of gender roles.

Several scholars have highlighted the inherent contradictions in matrilineal systems. One such contradiction arises from the separation of the line of descent and inheritance on the one hand and the structure of authority and control on the other. The former, which links the mother to the daughter, comes in conflict with the latter, which links the mother's brother to the sister's son. (In other words, a woman inherits property from her mother and passes it on to her daughter, while a man controls his sister's property and passes on control to his sister's son. Thus, inheritance passes from mother to daughter whereas control passes from (maternal) uncle to nephew.

Khasi matriliny generates intense role conflict for men. They are torn between their responsibilities to their natal house on the one hand, and to their wife and children on the other. In a way, the strain generated by such role conflict affects Khasi women more intensely. A can never be fully assured that her husband does not find his sister's house a more congenial place woman than her own. Similarly a sister will be apprehensive about her brother's commitment to her welfare because the wife with whom he lives can always pull him away from his responsibilities to his natal house.

The women are more adversely affected than men by the role conflict generated in the Khasi matrilineal system not only because men wield power and women are deprived of it, but also because the system is more lenient to men when there is a transgression of rules. Women possess only token authority in Khasi society; it is men who are the defacto power holders. The system is indeed weighted in favour of male matri-kin rather that male patri-kin. (In other words, despite matriliny, men are the power holders in Khasi society; the only difference is that a man's relatives on his mother's side matter more than his relatives on his father's side.)

Which form of family is reflected in Khasi society?

- (1) Political
- (2) Matrilineal
- (3) Patrilineal
- (4) Matriarchal

Read the passage and answer the following questions given below:

These are indicators of the process of globalisation of agriculture, or the incorporation of agriculture into the larger global market - a process that has had direct effects on farmers and rural society. For instance, in some regions such as Punjab and Karnataka, farmers enter into contracts with multinational companies (such as Pepsi Co.) to grow certain crops (such as tomatoes and potatoes), which the companies then buy from them for processing or export. In such 'contract farming' systems, the company identifies the crop to be grown, provides the seeds and other inputs, as well as the know how and often also the working capital. In return, the farmer is assured of a market because the company guarantees that it will purchase the produce at a predetermined fixed price. Contract farming is very common now in the production of specialised items such as cut flowers, fruits such as grapes, figs and pomegranates, cotton, and oilseeds. While contract farming appears to provide financial security to farmers, it can also lead to greater insecurity as farmers become dependent on these companies for their livelihoods. Contract farming of export-oriented products such as flowers and gherkins also means that agricultural land is diverted away from food grain production. Contract farming has sociological significance in that it disengages many people from the production process and makes their own indigenous knowledge of agriculture irrelevant. In addition, contract farming caters primarily to the production of elite items, and because it usually requires high doses of fertilisers and pesticides, it is often not ecologically sustainable.

Contract farming happens for :

- (1) cash crops only
- (2) food crops only
- (3) oilseeds and cotton
- (4) food processing industry

गद्यांश को पढ़ें और निम्नलिखित प्रश्न का उत्तर दें :

ये कृषि के भूमंडलीकरण की प्रक्रिया अथवा कृषि को विस्तृत अंतर्राष्ट्रीय बाजार में सिम्मिलित किए जाने के संकेत है वह प्रक्रिया जिसका किसानों और ग्रामीण समाज पर सीधा प्रभाव पड़ा है। उदाहरणार्थ पंजाब और कर्नाटक जैसे कुछ क्षेत्रों में किसानों ने बहुराष्ट्रीय कंपनियों (जैसे पेसी, कोक) से कुछ निश्चित फसलें (जैसे टमाटर और आलू) उगाने की संविदा दो गई है, जिन्हें ये कंपनियाँ उनसे प्रसंस्करण अथवा निर्यात हेतु खरीद लेती हैं। ऐसी 'संविदा खेती' पद्धित में, कंपनियाँ उगाई जाने वाली फसलों की पहचान करती हैं, बीज तथा अन्य वस्तुएँ निवेशों के रूप में उपलब्ध करवाती हैं, साथ ही जानकारी तथा अक्सर कार्यशील पूँजी भी देती है। बदले में, किसान बाजार की ओर से आश्वस्त रहता है क्योंकि कपंनी पूर्विनिर्धारित तय मूल्य पर उपज के क्रय का आश्वासन देती है। 'संविदा खेती' कुछ विशिष्ट मदों जैसे फूल (कट फ्लावर), अंगूर, अंजीर तथा अनार जैसे फल, कपास तथा तिलहन के लिए आजकल बहुत सामान्य है। जहाँ 'संविदा खेती' किसानों को वित्तीय सुरक्षा प्रदान करती है वहीं यह किसानों के लिए अधिक असुरक्षित भी बन जाती है, क्योंकि वे अपने जीवन व्यापार के लिए इन कंपनियों पर निर्भर हो जाते हैं। निर्यातोन्मुखी उत्पाद जैसे फूल और खीरे हेतु 'संविदा खेती' का अर्थ यह भी है कि कृषि भूमि का प्रयोग खाद्यान्न उत्पादन से हटकर किया जाता है। 'संविदा खेती' का समाजशास्त्रीय महत्त्व यह है कि यह बहुत से व्यक्तियों को उत्पादन प्रक्रिया से अलग कर देती है तथा उनके अपने देशीय कृषि ज्ञान को निर्थक बना देती है। इसके अतिरिक्त, 'संविदा खेती' मूलरूप से अभिजात मदों का उत्पादन करती है तथा चूँकि यह अकसर खाद तथा कीटनाशक का उच्च मात्रा में प्रयोग करते हैं, इसलिए यह बहुधा पर्यावरणीय दृष्टि से सुरक्षित नहीं होती है।

संविदा खेती होती है:

- (1) केवल नकदी फसलें
- (2) खाद्य फसल केवल
- (3) तिलहन और सूती
- (4) खाद्य प्रसंस्करण उद्योग

Read the passage and answer the following questions given below:

These are indicators of the process of globalisation of agriculture, or the incorporation of agriculture into the larger global market - a process that has had direct effects on farmers and rural society. For instance, in some regions such as Punjab and Karnataka, farmers enter into contracts with multinational companies (such as Pepsi Co.) to grow certain crops (such as tomatoes and potatoes), which the companies then buy from them for processing or export. In such 'contract farming' systems, the company identifies the crop to be grown, provides the seeds and other inputs, as well as the know how and often also the working capital. In return, the farmer is assured of a market because the company guarantees that it will purchase the produce at a predetermined fixed price. Contract farming is very common now in the production of specialised items such as cut flowers, fruits such as grapes, figs and pomegranates, cotton, and oilseeds. While contract farming appears to provide financial security to farmers, it can also lead to greater insecurity as farmers become dependent on these companies for their livelihoods. Contract farming of export-oriented products such as flowers and gherkins also means that agricultural land is diverted away from food grain production. Contract farming has sociological significance in that it disengages many people from the production process and makes their own indigenous knowledge of agriculture irrelevant. In addition, contract farming caters primarily to the production of elite items, and because it usually requires high doses of fertilisers and pesticides, it is often not ecologically sustainable.

The change in the nature of relationships between landlords and agricultural workers has been described by the sociologist Jan Breman as:

- (1) Shift from patronage to exploitation
- (2) Shift from ownership to tenancy
- (3) Withdrawal from subsistence farming
- (4) Withdrawal from agriculture
