Unquestionably a literary life is for the most part an unhappy life; because, if you have genius, you must suffer the penalty of genius; and if you have only talent, there are so many cares and worries incidental to the circumstances of men of letters, as to make life exceedingly miserable. Besides the pangs of composition, and the continuous disappointment which a trues artist feels at his inability to reveal himself, there is the ever-recurring difficulty of gaining the public ear. Young writers are buoyed up by the hope and the belief that they have only to print to be acknowledged at once as a new light in literature. You can never convince a young author that the editors of magazines and the publishers of books are a practical body of men, who are by no means frantically anxious about placing the best literature before the public. Nay, that for the most part they are mere brokers, who conduct their business on the hardest lines of a Profit and Loss account. But supposing your book fairly launches, its perils, are only beginning. You have to run the gauntlet of the critics. To a young author, again, this seems to be as terrible on ordeal as passing down the files of Sioux or Comanche Indians, each one of whom is thirsting for your scalp. When you are a little older, you will find that criticism is not much more serious that the bye-play of clowns in a circus, when they beat around the ring the victim with bladders slung at the end of long poles. A time comes in the life of every author when he regards critics as comical rather than formidable, and goes his way unheeding. But there are sensitive souls that yield under the chastisement and, perhaps after suffering much silent torture, abandon the profession of the pen for ever, Keats, perhaps, is the saddest example of a fine spirit hounded to death by savage criticism; because, whatever his biographers may aver, that furious attack of Gifford and Terry undoubtedly expediated his death. But no doubt there are hundreds who suffer keenly hostile and unscrupulous criticism, and who have to bear that suffering in silence, because it is a cardinal principle in literature that the most unwise thing in the world for an author is to take public notice of criticism in the way of defending himself. Silence is the only safeguard, as it is the only dignified protest against insult and offence.

Why is the literary life mostly an unhappy one?

1. Most people don't understand literary people

2. They have to suffer the penalty of genius

3. Literary life is not about richness

4. They do not get the publishers easily

Organisms change over time. Some of these changes make no difference to the success or failure of the organism that inherit them; other changes do. Take a group of antelopes in which one individual has longer legs than its siblings. Those longer legs make the individual better at escaping from predators, hence giving it an advantage in the survival stakes. Its descendants inherit this feature and are better able to survive as a consequence. Those longer legs have thus become an 'adaptation' Their evolution means that this particular lineage of ante lopes has adapted to its conditions, thanks to its development of this features. Their evolution means that this particular lineage of ante lopes

Over the generations, the individual components of the genetic code within a species change, or mutate. So far as we know, mutations mny provide no evolutionary advantage at all. They may be disadvantageous, in which case they are weeded out via natural selection; or they may be advantageous, in which case they persist through the generations.

Choose the most appropriate meaning of the given word:

MUTATION

    1. undergo a change in the genetic code

    2. transform into another organism

Supposing you have to make a payment of Rs.100, you can do so in rupees-coins; but it would be cumbersome to pay in nickel or copper coins, because they are heavy to carry and also because it takes much time to count them. The government therefore permits you to make the payment in rupee-notes. What are these rupee notes really? They are kind of money, right enough, although they are made of paper instead of metal. You can use them in just the same way that you use ordinary money. The reason why they are made of paper and used is that they save the trouble of carrying metal coins about-of course, paper is lighter than metal-and they also save using silver and other metals when they are scarce.

What makes these mere pieces of of paper bear the value of the number of rupees that is printed upon them? Why should a piece of paper, with "100" printed on it be worth twenty times as much as apiece of paper with "five" printed on it-and also worth a hundred times as much as a silver rupee-coin? The reason is that Government guarantees that the piece of paper is worth the amount printed an it and promised to pay that amount to any body who wishes to exchange this paper for the rupee-coins. Also, if you think about it you can easily realize that crores and crores more of rupee-coins would have to be minted, if all paper-money were abolished.

Perhaps you may ask, "Then why not have paper money only?" Why use silver and Nickle and copper at all? The answer is-because money must, as we have already said, be something so useful that everyone wants. Also because the metals are the best form of money; and thirdly because it would be impossible to print just the right amount of paper money that would keep prices at their proper natural level. It any Government prints too much paper money, then prices go up at once. The supply of money is increased and therefore its value (in food, clothes, books, houses, land, tools and everything else) goes down.

You may think at first that it is queer to talk of having too much paper money and the money is so nice and useful that you cannot have too much of it. But if you think that, I an afraid you are forgetting that money is only useful for what it will buy; so it is no good at all having more money if there are no more things to buy with it. The more money there is , the higher will be the prices of everything. The same thing happens with rupee-coins as with paper money. But it is not likely to happen, for this reason: it is very easy to print a great deal of paper money, but not at all easy to increase the amount there is if it keeps very steady and changes very little. In fact that is one of the chief reasons why it was chosen to make coins of.

Supposing you have to make a payment of Rs.100, you can do so in rupees-coins; but it would be cumbersome to pay in nickel or copper coins, because they are heavy to carry and also because it takes much time to count them. The government therefore permits you to make the payment in rupee-notes. What are these rupee notes really? They are kind of money, right enough, although they are made of paper instead of metal. You can use them in just the same way that you use ordinary money. The reason why they are made of paper and used is that they save the trouble of carrying metal coins about-of course, paper is lighter than metal-and they also save using silver and other metals when they are scarce.

What makes these mere pieces of of paper bear the value of the number of rupees that is printed upon them? Why should a piece of paper, with "100" printed on it be worth twenty times as much as apiece of paper with "five" printed on it-and also worth a hundred times as much as a silver rupee-coin? The reason is that Government guarantees that the piece of paper is worth the amount printed an it and promised to pay that amount to any body who wishes to exchange this paper for the rupee-coins. Also, if you think about it you can easily realize that crores and crores more of rupee-coins would have to be minted, if all paper-money were abolished.

Perhaps you may ask, "Then why not have paper money only?" Why use silver and Nickle and copper at all? The answer is-because money must, as we have already said, be something so useful that everyone wants. Also because the metals are the best form of money; and thirdly because it would be impossible to print just the right amount of paper money that would keep prices at their proper natural level. It any Government prints too much paper money, then prices go up at once. The supply of money is increased and therefore its value (in food, clothes, books, houses, land, tools and everything else) goes down.

You may think at first that it is queer to talk of having too much paper money and the money is so nice and useful that you cannot have too much of it. But if you think that, I an afraid you are forgetting that money is only useful for what it will buy; so it is no good at all having more money if there are no more things to buy with it. The more money there is , the higher will be the prices of everything. The same thing happens with rupee-coins as with paper money. But it is not likely to happen, for this reason: it is very easy to print a great deal of paper money, but not at all easy to increase the amount there is if it keeps very steady and changes very little. In fact that is one of the chief reasons why it was chosen to make coins of.

Vibha had created a unique all weather jackets which had solar panels embedded in it. The USP of the jacket was that, harnessing the solar energy it could keep the jacket warm like a heater and cold like an air conditioner depending on the weather. Her market was the youth who came out of the comfort of their homes to stay in hostels. The name of her product was 'TURN COAT' which was beautifully written in comic sans font outside her showroom in FLD Mall. The name had a rising sun next to it making it an attractive composition to look at. Vibha was reading a lot of literature on the promotion strategies that she could use. She had already fixed a public appearance by the superstar Ralia Kapoor at her showroom in 15 days. She opened up Instagram and Twitter accounts in the name of 'TURN COAT'. She got the name of the product and the symbol of the rising sun printed on the parking ticket, that were collected by customers coming to the mall. While deciding on the pricing she was suggested by her mentor to keep the price very high to recover her R & D costs spent on developing the product. She was a little hesitant to do so and decided to price TURN COAT by covering the cost of producing it plus with reasonable profits

Case Study (41-45):

Vibha had created a unique all weather jackets which had solar panels embedded in it. The USP of the jacket was that, harnessing the solar energy it could keep the jacket warm like a heater and cold like an air conditioner depending on the weather. Her market was the youth who came out of the comfort of their homes to stay in hostels. The name of her product was 'TURN COAT' which was beautifully written in comic sans font outside her showroom in FLD Mall. The name had a rising sun next to it making it an attractive composition to look at. Vibha was reading a lot of literature on the promotion strategies that she could use. She had already fixed a public appearance by the superstar Ralia Kapoor at her showroom in 15 days. She opened up Instagram and Twitter accounts in the name of 'TURN COAT'. She got the name of the product and the symbol of the rising sun printed on the parking ticket, that were collected by customers coming to the mall. While deciding on the pricing she was suggested by her mentor to keep the price very high to recover her R & D costs spent on developing the product. She was a little hesitant to do so and decided to price TURN COAT by covering the cost of producing it plus with reasonable profits

The pricing technique that was suggested to Vibha and the one that she finally used can be identified as-

A. Variable pricing
B. Penetration pricing
C. Skimming pricing
D. Fixed cost pricing
E. Cost-plus pricing

Gaurav owned an event management company called 'Lotus Ltd.' in Mumbai. He used to organise weddings, meetings, conferences , etc. These events were full of activities, music, food and entertainment. He used to outsource decoration material, food as well as entertainment from different vendors.

Ms. Geetika was an owner of catering and decoration company called Miles Ltd. in Mumbai. She used to cater the food and decoration needs of various customers such as corporate as well as family functions.

Gaurav & Geetika were performing well in their respective businesses until covid-19 lockdown was introduced. Due to lack of demand for food, decoration and events, both the companies started facing losses. As the lockdown was lifted, nearly after a year, both Gaurav and Geetika were facing problems in managing their increasing operational costs with lesser number of customers. As they were planning to look for better business opportunity, they got to meet each other at an 'exponential' organised by trades of Mumbai at BKC ground.

In this 'exponential', there were different traders sharing their business ideas with each other. Hence, it was here that Gaurav and Geetika decided to restart their business by merging their operations with a new company name. 'G$^2$ Lotus Miles Ltd'. They both shared their contacts of vendors and sutomers with each other and started getting order for events, food, decoration, entertainment, etc. Their business started blooming as their costs were lesser and more customers with demand of services given by Gaurav and Geetika.

Now its been two years that both of them have grown their business into other cities of Maharastra like, Pune, Ahmednagar and Nagpur under the company name of 'G$^2$ Lotus Miles Ltd'. The company is growing with increased annual sales of 30%.

Gaurav owned an event management company called 'Lotus Ltd.' in Mumbai. He used to organise weddings, meetings, conferences , etc. These events were full of activities, music, food and entertainment. He used to outsource decoration material, food as well as entertainment from different vendors.

Ms. Geetika was an owner of catering and decoration company called Miles Ltd. in Mumbai. She used to cater the food and decoration needs of various customers such as corporate as well as family functions.

Gaurav & Geetika were performing well in their respective businesses until covid-19 lockdown was introduced. Due to lack of demand for food, decoration and events, both the companies started facing losses. As the lockdown was lifted, nearly after a year, both Gaurav and Geetika were facing problems in managing their increasing operational costs with lesser number of customers. As they were planning to look for better business opportunity, they got to meet each other at an 'exponential' organised by trades of Mumbai at BKC ground.

In this 'exponential', there were different traders sharing their business ideas with each other. Hence, it was here that Gaurav and Geetika decided to restart their business by merging their operations with a new company name. 'G$^2$ Lotus Miles Ltd'. They both shared their contacts of vendors and sutomers with each other and started getting order for events, food, decoration, entertainment, etc. Their business started blooming as their costs were lesser and more customers with demand of services given by Gaurav and Geetika.

Now its been two years that both of them have grown their business into other cities of Maharastra like, Pune, Ahmednagar and Nagpur under the company name of 'G$^2$ Lotus Miles Ltd'. The company is growing with increased annual sales of 30%.

"G$^2$ Lotus Miles Ltd." is related to-

Read the passage and answer 5 questions that follow:
High technology, or simply high-tech, is the latest generation of manufacturing activities. It is best understood as the application of intensive research and development (R and D) efforts leading to the manufacture of products of an advanced scientific and engineering character. Professional (white collar) workers make up a large share of the total workforce. These highly skilled specialists greatly outnumber the actual production (blue collar) workers. Robotics on the assembly line, computer-aided design (CAD) and manufacturing, electronic controls of smelting and refining processes, and the constant development of new chemical and pharmaceutical products are notable examples of a high-tech industry.
Neatly spaced, low, modern, dispersed, office-plant-lab buildings rather than massive assembly structures, factories and storage areas mark the-tech industrial landscape. Planned business parks for high-tech start-ups have become part of regional and local development schemes.
High-tech industries which are regionally concentred, self-sustained and highly specialised are called technopolies. The Silicon Valley near San Francisco and Silicon Forest near Seattle are examples of techonopolies.
Manufacturing contributes significantly to the world economy. Iron and steel, textiles, automobiles, petrochemicals and electronics are some of the world's most important manufacturing industries.

Which one of the following is not true about High-Tech industry?

1. High-Tech is latest manufacturing Industry

2. It is intensive research and development unit

Read the passage and answer 5 questions that follow:

Watershed management basically refers to efficient management and conservation of surface and groundwater resources. It involves prevention of runoff and shortage and recharge of groundwater through various methods like percolation tanks. Recharge wells. Etc. however. In broad sense watershed management includes conservation. Regeneration and judicious use of all resources- natural (like land water plants and animals) and human with in a watershed. Watershed management aims at bringing about balance between natural resources on the one hand and society on the other. The success of watershed development largely depends upon community participation.

The Central and State Government have initiated many watershed development and management programmes in the country. some of these are being implemented by non-government organisations also. Haryali is a watershed development project sponsored by the Central Government which aims at enabling the rural populations to conserve water for drinking, irrigation, fisheries and afforestation. The Project is being executed by Gram Panchayats with people's participation. Neeru-Meeru (water and you) programme (in Andhra Pradesh) and Arvary Pani Sansad (in Alwar Rajasthan) have taken up constructions of various water-harvesting structures such as percolation tanks. Dug out ponds (Johand). Check dams. etc… through people's participation. Tamil Nadu has made water harvesting structures in the houses compulsory. No building can be constructed without making structures for water harvesting.

watershed development projects in some areas have been successful in rejuvenating environment and economy. However. There are only a few success stories. In majority of cases. The programme is still in its nascent stage. There is a need to generate awareness regarding benefits of watershed development and management among people in the country, and through this integrated water resource management approach water availability can be ensured on sustainable basis.

What is watershed?

1. It is efficient management and conservation of surface and groundwater resources.

2. It is a system of equitable distribution of water in an area.

3. It is a method of storing the canal water.

4. It is harvesting of natural streams.

Read the paragraph and answer the following questions:

The Nobel recipient Rabindranath Tagore had a great place for Manipuri dance in his heart. He was attracted to the Manipuri dance form for its many features. In his poem "Chitrangada", which was later transformed into a dance drama, he takes the story to the land of Manipur. We have seen that Tagore was absorbed in padavali lyrics at a very tender age for the beautiful compositional and the descriptive aspect of the padavali poems. He wrote quite a few poems in Brajbuli like vaishnava lyrics in the pen name Bhanusingha which are a collection under the name of "Bhanusingher Padavali". These lyrics serve as a perfect accompaniment to Manipuri dances and often Bhanusingher Padavalis are performed as a dance drama in Manipuri dance style today.

What was the pen name of the author of 'Bhanusingher Padavali'?

নোবেল জয়ী রবীন্দ্রনাথ ঠাকুরের হৃদয়কে মণিপুরী নৃত্য ভীষণ ভাবে স্পর্শ করেছিল। মণিপুরী নৃত্যের বিভিন্ন বৈশিষ্ট্যাবলীর জন্য তিনি মণিপুরী নৃত্যের প্রতি আকর্ষিত হয়েছিলেন । তাঁর রচিত কবিতা 'চিত্রাঙ্গদা' , যা পরবর্তীকালে চিত্রনাট্যে রূপান্তরিত করা হয়েছিল, তার গল্পটি মণিপুরের প্রেক্ষাপটেই নির্মিত। পদাবলী কবিতাগুলির অপূর্ব রচনাশৈলী ও বর্ণনাত্মক দিকগুলির কারণে রবীন্দ্রনাথ ঠাকুর খুবই অল্পবয়সে পদাবলী সাহিত্যকে গ্রহণ করেছেন। যা আমরা সকলেই দেখেছিলাম। তিনি ব্রজবুলী ভাষাতে বেশ কিছু কবিতা লিখেছিলেন, যেমন বৈষ্ণব পদাবলী যা ভানুসিংহ ছদ্মনামে রচিত - "ভানুসিংহের পদাবলী" নামে প্রসিদ্ধ , যেটির কথা সম্পূর্ণরূপে সংগত করা যায় মণিপুরী নৃত্যের সাথে এবং বর্তমানে ভানুসিংহের পদাবলী  মণিপুরী নৃত্যের ন্যায় চিত্রনাট্য হিসেবে পরিবেশন করা হয়ে থাকে ।

Read the paragraph and answer the following questions:

The Nobel recipient Rabindranath Tagore had a great place for Manipuri dance in his heart. He was attracted to the Manipuri dance form for its many features. In his poem "Chitrangada", which was later transformed into a dance drama, he takes the story to the land of Manipur. We have seen that Tagore was absorbed in padavali lyrics at a very tender age for the beautiful compositional and the descriptive aspect of the padavali poems. He wrote quite a few poems in Brajbuli like vaishnava lyrics in the pen name Bhanusingha which are a collection under the name of "Bhanusingher Padavali". These lyrics serve as a perfect accompaniment to Manipuri dances and often Bhanusingher Padavalis are performed as a dance drama in Manipuri dance style today.

There is a great importance of laya in Indian Talas. Laya has been categorised basically into three types - Vilambit, Madhya and Druta. The rule of application in various forms of laya is called 'Yati'. Yati denotes application of 'gati'. Yati has been classified into five types, Sama, Strotogata, Gopuchha, Mridanga and Pipilika. In sama yati, the same laya is used throughout, that is beginning to end. In strotogata, initially we use slow (vilambit) laya whereas Madhya occurs in the middle and Drut laya comes at the end. When it comes to Gopuchha, exactly inverse order of layas is put to application vis a vis strotogata meaning thereby in the later Druta, Madhya laya and Vilambit laya occurs in the first, middle and last order. In Mridanga, drut laya is used at the outset as well as at the end and Madhya laya is used amidst thereof. In Pipilika, vilambit laya occurs in the beginning, at the end while madhya laya is used in middle order, hence 'Yati' is an important aspect of tala's Das Pranas.

There is a great importance of laya in Indian Talas. Laya has been categorised basically into three types - Vilambit, Madhya and Druta. The rule of application in various forms of laya is called 'Yati'. Yati denotes application of 'gati'. Yati has been classified into five types, Sama, Strotogata, Gopuchha, Mridanga and Pipilika. In sama yati, the same laya is used throughout, that is beginning to end. In strotogata, initially we use slow (vilambit) laya whereas Madhya occurs in the middle and Drut laya comes at the end. When it comes to Gopuchha, exactly inverse order of layas is put to application vis a vis strotogata meaning thereby in the later Druta, Madhya laya and Vilambit laya occurs in the first, middle and last order. In Mridanga, drut laya is used at the outset as well as at the end and Madhya laya is used amidst thereof. In Pipilika, vilambit laya occurs in the beginning, at the end while madhya laya is used in middle order, hence 'Yati' is an important aspect of tala's Das Pranas.

Read the above passage and answer the following questions:

The sequence of laya in strotogata is:

1. Vilambit - Madhya - Drut

2. Drut - Madhya - Drut

3. Drut - Drut - Madhya

4. Madhya - Vilambit - Drut

Read the following passage and answer the questions given below:

Sangeet Natak Akademi (SNA)

The SNA was established on 31 May 1952. In his speech at the inauguration on 28 January 1953, Maulana Azad (1888-1958), then Union Minister for Education and later founder of the Indian Council for Cultural Relations (ICCR), said that the aim of the SNA was to 'preserve our traditions by offering them an institutional form'.

The SNA's mission, stated in its Memorandum of Association is:

To promote research in the fields of Indian music, dance and drama and for this purpose to establish a library and a museum; to encourage the exchange of ideas and enrichment of techniques between the different regions in regard to the arts of music, dance and drama; to publish research on Indian performing arts; to revive and preserve folk traditions in different regions; to sponsor and encourage festival, seminars and conferences; to give recognition to individual artists for outstanding achievement; to foster cultural contacts between different regions of the country and with other countries; and to cooperate with similar Akademis, institutions and associations for the furtherance of these objectives

With respect to theatre, the SNA holds workshops for playwrights; funds interstate cultural exchange programmes; funds research in the traditional performing arts; offers financial support to cultural institutions; organizes festivals of modern theatre, traditional performance, shadow theatre, marionette theatre and other forms of puppetry; gives awards and fellowship to distinguished artists; collects audiotapes, videos and photographs; and maintains an audiovisual archive as well as a library.

According to the passage, identify the activities conducted by SNA, with respect to theatre.

The Indian Government is already participating in global efforts through a number of programmes. For example, India's National Auto-fuel Policy mandates cleaner fuels for vehicles. The energy Conservation Act, passed in 2001, outlines initiative to improve energy efficiency. Similarly, the Electricity Act of 2003 encourages the use of renewable energy. Recent trends in importing natural gas and encouraging the adoption of clean coal technologies show that India has been making real efforts. the Government is also keen to launch a National Mission on Biodiesel, using about 11 million hectares of land to produce biodiesel by 2011-2012. India ratified the Paris Climate Agreement on 2 October 2016. And India has one of the largest renewable energy programmes in the world.

A review of the implementation of the agreements at the Earth Summit in Rio was undertaken by India in 1997.

India feels this contravenes very spirit of UNFCCC. Neither does it seem fair to impose restrictions on India when the country's rise in per capita carbon emissions by 2030 is likely to still represent less than half the world average of 3.8 tonnes in 2000. Indian emissions are predicted to rise from 0.9 tonnes per capita in 2000 to 1.6 tonnes per capita in 2030

The Indian Government is already participating in global efforts through a number of programmes. For example. India's National Auto-fuel Policy mandates cleaner fuels for vehicles. The energy Conservation Act, passed in 2001, outlines initiative to improve energy efficiency. Similarly, the Electricity Act of 2003 encourages the use of renewable energy. Recent trends in importing natural gas and encouraging the adoption of clean coal technologies show that India has been making real efforts. the Government is also keen to launch a National Mission on Biodiesel, using about 11 million hectares of land to produce biodiesel by 2011-2012. India ratified the Paris Climate Agreement on 2 October 2016. And India has one of the largest renewable energy programmes in the world.

A review of the implementation of the agreements at the Earth Summit in Rio was undertaken by India in 1997.

India feels this contravenes very spirit of UNFCCC. Neither does it seem fair to impose restrictions on India when the country's rise in per capita carbon emissions by 2030 is likely to still represent less than half the world average of 3.8 tonnes in 2000. Indian emissions are predicted to rise from 0.9 tonnes per capita in 2000 to 1.6 tonnes per capita in 2030

Read the passage and answer the questions:

Regionalism in India is rooted in India's diversity of languages, cultures, tribes and religions. It is also encouraged by the geographical concentration of these identity workers in particular regions and fuelled by a sense of regional deprivation. Indian federalism has been a means of accommodating these regional sentiments.

After independence, initially the Indian state continued with the British-Indian arrangement, dividing India into large provinces, also called 'Presidencies'. These were large multi-ethnic and multilingual provincial states constituting the major political-administrative units of a semi-federal state called the Union of India. Languages coupled with regional and tribal identity and not religion has therefore provided the most powerful instrument for the formation of ethno-rational identity in India.

The three major factors for the formation of ethno-rational identity in India are:

    1. Linguistic, tribal and religious identity

    2. Linguistic, caste and tribal identity

Read the passage and answer the following questions:

These are indicators of the process of globalisation of agriculture, or the incorporation of agriculture into the larger global market - a process that has had direct effects on farmers and rural society. For instance, in some regions such as Punjab and Karnataka, farmers enter into contracts with multinational companies (such as PepsiCo) to grow certain crops (such as tomatoes and potatoes), which the companies then buy from them for processing or export. In such 'contract farming' systems, the company identifies the crops to be grown, provides the seeds and other inputs, as well as the knowhow and often also the working capital. In return, the farmer is assured of a market because the company guarantees that it will purchase the produce at a predetermined fixed price. Contract farming is very common now in the production of specialised items such as cut flowers, fruits such as grapes, figs and pomegranates, cotton and oil seeds. While contract farming appears to provide financial security to farmers, it can also lead to greater insecurity as farmers become dependent on these companies for their livelihoods. Contract farming of export-oriented products such as flowers and gherkins also means that agricultural land is diverted from food grain production. Contract farming has sociological significance in that it disengages many people from the production process and makes their own indigenous knowledge of agriculture irrelevant. In addition, contract farming caters primarily to the production of elite items, and because it usually requires high doses of fertilisers and pesticides, it is often not ecologically sustainable.

Contract farming happens for:

1. Cash crops only

Read the passage and answer the following questions:

These are indicators of the process of globalisation of agriculture, or the incorporation of agriculture into the larger global market - a process that has had direct effects on farmers and rural society. For instance, in some regions such as Punjab and Karnataka, farmers enter into contracts with multinational companies (such as PepsiCo) to grow certain crops (such as tomatoes and potatoes), which the companies then buy from them for processing or export. In such 'contract farming' systems, the company identifies the crops to be grown, provides the seeds and other inputs, as well as the knowhow and often also the working capital. In return, the farmer is assured of a market because the company guarantees that it will purchase the produce at a predetermined fixed price. Contract farming is very common now in the production of specialised items such as cut flowers, fruits such as grapes, figs and pomegranates, cotton and oil seeds. While contract farming appears to provide financial security to farmers, it can also lead to greater insecurity as farmers become dependent on these companies for their livelihoods. Contract farming of export-oriented products such as flowers and gherkins also means that agricultural land is diverted from food grain production. Contract farming has sociological significance in that it disengages many people from the production process and makes their own indigenous knowledge of agriculture irrelevant. In addition, contract farming caters primarily to the production of elite items, and because it usually requires high doses of fertilisers and pesticides, it is often not ecologically sustainable.

Who decides the crop to be grown under contract farming?

1. Farmer

2. Tenants

3. Labourer

4. Company
