Question Paper Name :	Stenographer Group C Stage I Examination 01 August 2023 Shift 1
Subject Name :	Stenographer (Group C) Stage I Examination
Creation Date :	2023-08-01 13:42:51
Duration :	130
Total Marks :	800
Display Marks:	Yes

I

Group Number :	1
Group Id :	47954812
Group Maximum Duration :	0
Group Minimum Duration :	0
Show Attended Group? :	No
Edit Attended Group? :	No
Break time :	0
Group Marks :	200
Is this Group for Examiner? :	No
Examiner permission :	Cant View
Show Progress Bar? :	No

General Aptitude

Section Id :	47954812
Section Number :	1
Section type :	Online
Mandatory or Optional :	Mandatory
Number of Questions :	50
Number of Questions to be attempted :	50
Section Marks :	200
Enable Mark as Answered Mark for Review and Clear Response :	Yes
Maximum Instruction Time :	0
Sub-Section Number :	1
Sub-Section Id :	47954816
Question Shuffling Allowed :	Yes
Is Section Default? :	null

Question Number : 1 Question Id : 4795481164 Question Type : MCQ Option Shuffling : No Is Question Mandatory : No Calculator : None
 Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
 Correct Marks : 4 Wrong Marks : 1

In this question, a statement is followed by two assumptions numbered **I** and **II**. You have to decide which of the assumption(s) is/are implicit in the statement.

Statement : If he is intelligent, he will pass the examination.

Assumptions : (I) To pass, he must be intelligent.

(II) He will pass the examination.

- (1) Only assumption (I) is implicit.
- (2) Only assumption (II) is implicit.
- (3) Either (I) or (II) is implicit.
- (4) Both (I) and (II) are implicit.

Options :

4795484641. 1
4795484642. 2
4795484643. 3
4795484644. 4

Question Number : 1 Question Id : 4795481164 Question Type : MCQ Option Shuffling : No Is Question Mandatory : No Calculator : None
Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 4 Wrong Marks : 1

इस प्रश्न में एक कथन है और इसके बाद दो पूर्वधारणाएं I और II दी गई हैं। आपको यह निश्चय करना है कि इस कथन में निम्नलिखित में कौन-सी पूर्वधारणा/पूर्वधारणाएं कथन में अंतर्निहित है/हैं?

कथन : यदि वह मेधावी है, तो वह परीक्षा पास कर लेगा।

पूर्वधारणा : (I) पास करने के लिए व्यक्ति को मेधावी होना अनिवार्य है।
(II) वह परीक्षा पास कर लेगा।

- (1) केवल पूर्वधारणा (I) अंतर्निहित है।
- (2) केवल पूर्वधारणा (II) अंतर्निहित है।
- (3) (I) अथवा (II) अंतर्निहित हैं।
- (4) (I) और (II) दोनों अंतर्निहित हैं।

Options :

- 4795484641. 1
- 4795484642. 2
- 4795484643. 3
- 4795484644. 4

Question Number : 2 Question Id : 4795481165 Question Type : MCQ Option Shuffling : No Is Question Mandatory : No Calculator : None
Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 4 Wrong Marks : 1

In this question, a statement is followed by three assumptions numbered I, II, and III. You have to decide which of the assumption(s) is/are implicit in the statement.

Statement : Items in big showrooms in main markets are costlier than similar items in small shops.

Assumptions : (I) Items in small shops are never reliable.
(II) Persons managing big showrooms are cheaters.
(III) Maintenance of big showrooms is an expensive affair in itself, hence the prices are a little higher.

- (1) Only (I) is implicit.
- (2) Only (II) is implicit.
- (3) Only (III) is implicit.
- (4) Either (II) or (III) is implicit.

Options :

- 4795484645. 1
- 4795484646. 2
- 4795484647. 3
- 4795484648. 4

Question Number : 2 Question Id : 4795481165 Question Type : MCQ Option Shuffling : No Is Question Mandatory : No Calculator : None
Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 4 Wrong Marks : 1

इस प्रश्न में एक कथन है और इसके बाद तीन पूर्वधारणाएं I, II, और III दी गई हैं। आपको यह निश्चय करना है कि इस कथन में निम्नलिखित में से कौन सी पूर्वधारणाएं कथन में अंतर्निहित हैं/हैं?

कथन : मुख्य बाजार में बड़े शोरूमों में वस्तुएं छोटी दूकानों की वस्तुओं से महंगी हैं।

पूर्वधारणा : (I) छोटी दूकानों की वस्तुएं कभी विश्वासनीय नहीं होती हैं।

(II) बड़े शोरूमों के प्रबंधक ठग होते हैं।

(III) बड़े शोरूमों का अनुरक्षण अपने आप में एक खर्चीला कार्य है, अतः किमतें थोड़ा ऊँची होती हैं।

- (1) केवल (I) अंतर्निहित है।
(2) केवल (II) अंतर्निहित है।
(3) केवल (III) अंतर्निहित है।
(4) (II) अथवा (III) अंतर्निहित है।

भारत की जनगणना - 2011 के अनुसार, सूची - I में प्रदत्त राज्यों के नामों को सूची - II में प्रदत्त कुल साक्षरता-दर से सही सुमेलित कीजिए।

सूची - I

सूची - II

(लगभग)

- | | |
|---------------|-----------|
| (A) उत्तराखंड | (I) 76% |
| (B) पंजाब | (II) 67% |
| (C) राजस्थान | (III) 91% |
| (D) मिजोरम | (IV) 79% |

नीचे दिए गए विकल्पों में से सही उत्तर का चयन कीजिए।

- (1) (A)-(III), (B)-(II), (C)-(IV), (D)-(I)
- (2) (A)-(IV), (B)-(I), (C)-(II), (D)-(III)
- (3) (A)-(II), (B)-(III), (C)-(IV), (D)-(I)
- (4) (A)-(I), (B)-(IV), (C)-(III), (D)-(II)

Question Label : Comprehension

- I. Tesla, a global pioneer in electric cars, has reportedly sought special concessions for investing in India. Earlier, it wanted to import Teslas to test market demand, but found this unfeasible since India's import tariff was 60 - 100%. It sought a much lower tariff, but the government rightly refused.
Elon Musk is a fantastic innovator. India should welcome him. After Apple, he will represent another global giant diversifying production out of China into India. But he should compete on a level field with rivals.
Tesla no longer seeks concessional import tariffs. Instead, it is said to be lobbying for special incentives to produce e-cars and batteries. These batteries will be not just for captive use, but may include the sale of batteries designed to store solar and wind energy (which is produced intermittently).
- II. Such investment is very welcome. But India already offers incentives to producers who build large factories for the manufacture of both e-autos and batteries, through tax breaks, concessional GST rates, tariff protection and PLI (Production Linked Incentive of 4 - 6% for five years). Let Tesla get the same incentives as others, no more.
Truth is, Tesla needs India more than India needs Tesla. India is a very price-sensitive market. Tesla produces beautiful luxury e-cars but even its cheapest model will cost probably Rs. 30 - 35 lakh in India. So, it will be irrelevant for the mass market and compete with high-end rivals like Mercedes Benz for a small upper-niche market. That is why India can easily do without Tesla right now.
- III. But Tesla cannot ignore a country of 1.4 billion people rapidly getting richer. It needs to establish itself in India now itself, and not make the mistake of waiting too long and finding later that it cannot dislodge entrenched market leaders. In conventional autos, Suzuki and Hyundai rushed early into India to become market leaders and never looked back. Other auto majors that are much larger globally - Toyota, Volkswagen, General Motors - entered later and found they could never catch up with Suzuki and Hyundai. Even Indian companies like Tata and Mahindra proved formidable rivals. Tesla stands warned that it must enter India quickly and suffer losses for some years if it wants to be an established player when India eventually becomes a gigantic electric market.
- IV. Tata Motors sells an electric version of the Tiago starting at just Rs. 8.7 lakh (under \$ 11,000). This is far cheaper than any conventional or electric auto in the US. Tata, Mahindra and Ashok Leyland are also testing electric trucks which should roll out within two years. All foreign majors in India have electric plans : they know the future is electric. Hence, Tesla merits no special concessions.
- V. After negotiating and hesitating for years, Apple finally entered India - geopolitical considerations persuaded it, along with other global giants - to diversify production away from China to alternatives like India. The same logic is driving Tesla too. Apple iPhones are assembled in India by three of its giant component suppliers - Foxconn, Wistron and Pegatron. The value added by assembly in India is very modest, and Apple gets protection from a 20% duty on smartphone imports. Critics fear that Apple gets too many concessions for little value addition. But when the production scale rises to \$20 billion per year, even a 5% value addition will amount to a billion dollars. The value added in auto assembly is much higher.
- VI. The PLI scheme is not open ended - it has a fixed budget. Beneficiaries get incentives for only five years, by which time they are supposed to have economies of scale that make them profitable without incentives. The risk is that the beneficiaries will threaten to leave if incentives are not continued after five years. That is why insisting on large investments for PLI is important. Once large factories are built, MNCs will not easily shutter them just because incentives have ended.
- VII. In phones, PLI and other incentives are available not just to Apple but other producers like Samsung. Indian companies such as Micromax and Lava have been approved for PLI, and so have been approached by Chinese companies like Xiaomi, Vivo and Oppo to assemble their phones. The same principle of competition in a level field of incentives should apply to Tesla.

Question Numbers : (101 to 110)

Question Label : Comprehension

- I. Tesla, a global pioneer in electric cars, has reportedly sought special concessions for investing in India. Earlier, it wanted to import Teslas to test market demand, but found this unfeasible since India's import tariff was 60 - 100%. It sought a much lower tariff, but the government rightly refused.
Elon musk is a fantastic innovator. India should welcome him. After Apple, he will represent another global giant diversifying production out of China into India. But he should compete on a level field with rivals.
Tesla no longer seeks concessional import tariffs. Instead, it is said to be lobbying for special incentives to produce e-cars and batteries. These batteries will be not just for captive use, but may include the sale of batteries designed to store solar and wind energy (which is produced intermittently).
- II. Such investment is very welcome. But India already offers incentives to producers who build large factories for the manufacture of both e-autos and batteries, through tax breaks, concessional GST rates, tariff protection and PLI (Production Linked Incentive of 4 - 6% for five years). Let Tesla get the same incentives as others, no more.
Truth is, Tesla needs India more than India needs Tesla. India is a very price-sensitive market. Tesla produces beautiful luxury e-cars but even its cheapest model will cost probably Rs. 30 - 35 lakh in India. So, it will be irrelevant for the mass market and compete with high-end rivals like Mercedes Benz for a small upper-niche market. That is why India can easily do without Tesla right now.
- III. But Tesla cannot ignore a country of 1.4 billion people rapidly getting richer. It needs to establish itself in India now itself, and not make the mistake of waiting too long and finding later that it cannot dislodge entrenched market leaders. In conventional autos, Suzuki and Hyundai rushed early into India to become market leaders and never looked back. Other auto majors that are much larger globally - Toyota, Volkswagen, General motors-entered later and found they could never catch up with Suzuki and Hyundai. Even Indian companies like Tata and Mahindra proved formidable rivals. Tesla stands warned that it must enter India quickly and suffer losses for some years if it wants to be an established player when India eventually becomes a gigantic electric market.
- IV. Tata Motors sells an electric version of the Tiago starting at just Rs. 8.7 lakh (under \$ 11,000). This is far cheaper than any conventional or electric auto in the US. Tata, Mahindra and Ashok Leyland are also testing electric trucks which should roll out within two years. All foreign majors in India have electric plans : they know the future is electric. Hence, Tesla merits no special concessions.
- V. After negotiating and hesitating for years, Apple finally entered India - geopolitical considerations persuaded it, along with other global giants - to diversify production away from China to alternatives like India. The same logic is driving Tesla too. Apple iPhones are assembled in India by three of its giant component suppliers - Foxconn, Wistron and Pegatron. The value added by assembly in India is very modest, and Apple gets protection from a 20% duty on smartphone imports. Critics fear that Apple gets too many concessions for little value addition. But when the production scale rises to \$20 billion per year, even a 5% value addition will amount to a billion dollars. The value added in auto assembly is much higher.
- VI. The PLI scheme is not open ended - it has a fixed budget. Beneficiaries get incentives for only five years, by which time they are supposed to have economies of scale that make them profitable without incentives. The risk is that the beneficiaries will threaten to leave if incentives are not continued after five years. That is why insisting on large investments for PLI is important. Once large factories are built, MNCs will not easily shutter them just because incentives have ended.
- VII. In phones, PLI and other incentives are available not just to Apple but other producers like Samsung. Indian companies such as Micromax and Lava have been approved for PLI, and so have been approached by Chinese companies like Xiaomi, Vivo and Oppo to assemble their phones. The same principle of competition in a level field of incentives should apply to Tesla.
